Index

array (expression, constraint), 127
array translation, 166
atomic rule, 63
atomically complete rule set, 64
ATPG, 83
backward chaining, 16
BC, 14
bounds-consistency, 14

CHR, 17
closure, 63
closure under meta rules, 63
CNF, 104
combinational circuit, 84
composition, 159
conjunctive normal form, 104
consistent CSP, 10
constraint, 9
  associated with a rule, 20
Constraint Handling Rules, 17
constraint propagation, 12
constraint propagation rule, 18
constraint satisfaction problem, 10
constraint splitting, 12
constraint store, 17
correct rule, 18
CSP, 10
depth-first search, 11
disjunctive constraint, 12, 62, 112, 166
domain partitioning, 11
domain splitting, 11
element constraint, 125, 136
enumeration, 11
equality rule, 20
equivalent CSPs, 11
factorizing constraint, 116
(in)feasible rule, 65
first-fail heuristic, 12
F & O algorithm, 30
forward chaining, 16
friends, 24
GAC, 13
generalised arc-consistency, 13
generic iteration algorithm, 22
Gi algorithm, 23
holds, 26
idempotent function, 25
inflationary function, 23
integrity constraint, 144
inter-state constraint, 159
interval
  domain, 14
  expression, 10

intra-state constraint, 157
\( \kappa \)-satisfiable, 108
KCSP, 109
\texttt{k-sat} algorithm schema, 109
local consistency, 13
membership rule, 20
memory element, 86
meta rule, 59
minimal set, 44
modal depth, 107
monotonic condition, 26
function, 23
multi-constraint membership rule, 69
node consistency, 19
non-solution, 63
\textit{obviated}, 24
partial ordering, 22, 32
partially redundant rule, 45
path-consistency, 15
PC, 15
precise condition, 26
projection, 10
\textit{prop} rule, 26
propositional formula, 104
pseudo input and output, 86
qualitative reasoning, 139
qualitative simulation, 157
R algorithm, 28
RCC-8, 141
redundancy ratio, 49
redundant rule, 45
reflexivity, 159
Region Connection Calculus, 141
relation
constraint, 142
variable, 144
relational \((1,m)\)-consistency, 67
RGA algorithm, 78
rule-based programming, 15
scenario, 141
sequential circuit, 86
simplification rule, 17
solution, 10
solving degree, 41, 54
solving rule, 40
splitting, 11
stable function, 25
stratification, 107
stuck-at fault, 84
subsumed rule, 46, 59
temporal formula (past and future), 159
test pattern, 85
time-frame, 92
translation
array \sim, 166
unfolding \sim, 165
transposition, 159
unfolding translation, 165
unification, 16
witness of a rule, 26
