List of Tables	x
List of Figures	xi
List of Maps	xi
List of Plates	xi
<b>1 Introduction</b>	<b>1</b>
1.1 The problem of solid waste collection in the context of decentralisation and privatisation	3
1.2 Problem statement, objectives and research questions	4
1.3 Relevance of the study	5
1.4 Structure of the study	6
1.4.1 Methodology	7
1.4.2 Structure of the research phases	8
1.4.3 Data processing and analysis	10
1.4.4 Limitations of the study	12
1.5 The study area (Accra metropolitan area)	15
1.5.1 Major characteristics of city of Accra	17
1.5.2 Research localities	19
1.6 Structure of the thesis	22
<b>2 Decentralisation, Privatisation and the African State</b>	<b>25</b>
2.1 Decentralisation	26
2.1.1 Defining the concept	26
2.1.2 The rationale for decentralisation	27
2.1.3 Critique on decentralisation policies	29
2.2 Privatisation	31
2.2.1 Defining the concept	31
2.2.2 The rationale for privatisation	32
2.2.3 Critique on privatisation policies	34
2.3 Ideological motivations for decentralisation and privatisation	37
2.4 The African State facing decentralisation and privatisation	39
2.4.1 Ethnicity/regional diversity	39

2.4.2	The impact of clientelism, favouritism and corrupt elites	39
2.4.3	The state is incapable of fulfilling its development functions	41
2.4.4	The impact of structural adjustment programmes on the state	42
2.4.5	A weak indigenous private sector	43
2.5	Conclusions	43
<b>3</b>	<b>Urban Governance and the Environment</b>	<b>47</b>
3.1	Urban management	47
3.1.1	The urban management concept	48
3.1.2	The building blocks of an urban management model	50
3.1.3	The urban management model ideology	51
3.2	Urban governance	53
3.2.1	Linking urban governance to urban management	55
3.2.2	Partnerships and new institutional arrangements	56
3.2.3	From privatisation to public-private partnerships	59
3.2.4	Challenges for partnerships	61
3.3	Urban management and the environment	62
3.3.1	Coming to terms with sustainable development	62
3.3.2	Local responses to global demands for sustainable development	64
3.3.3	Ecological footprints of cities	65
3.4	Urban environmental management	66
3.5	Conclusions	70
<b>4</b>	<b>Solid Waste Management</b>	<b>73</b>
4.1	Solid waste management in theoretical perspective	74
4.1.1	Concept and definitions	74
4.1.2	Types of solid waste management studies	76
4.2	The solid waste management system	79
4.2.1	Household storage	80
4.2.2	Collection	81
4.2.3	Transportation	82
4.2.4	Reuse	83
4.2.5	Recycling	83
4.2.6	Composting	84
4.2.7	Disposal	85
4.3	Solid waste management: an economic good	86
4.4	Solid waste collection: a public good	87
4.4.1	Linkage of solid waste collection to decentralisation and privatisation	89
4.4.2	Linkage of solid waste collection to sustainable development	91

4.5	Conclusions	94
<b>5</b>	<b>Decentralisation and Privatisation in Ghana Formal Rules and Actual Practices</b>	<b>97</b>
5.1	General profile of Ghana	97
5.2	Historical perspectives of local government in Ghana	99
5.2.1	The main forms of local government administration in Ghana prior to 1988	102
5.2.2	The 1988 decentralisation reform	111
5.2.3	The privatisation of public services	125
5.3	Discussion	140
5.3.1	Critical notes on the privatisation process in Ghana	140
5.3.2	Decentralisation, privatisation, neo-liberalism and globalisation: a critique on their suitability	146
5.3.3	Retaining centralised structures	148
5.4	Conclusions	150
<b>6</b>	<b>Solid Waste Management in Accra</b>	<b>153</b>
6.1	Dimensions of the solid waste collection problem	154
6.1.1	The dilemma of estimated daily solid waste generation in Accra for planning	156
6.2	The solid waste cycle	158
6.2.1	Collection and transportation	159
6.2.2	Recycling of waste (recyclable items/materials)	160
6.2.3	Reuse of materials	164
6.2.4	Waste disposal of non-recyclable items/materials	165
6.3	Policy interventions in solid waste collection in AMA in the recent past	166
6.3.1	The PAYD system	166
6.3.2	Organisational changes in solid waste collection since 1988	166
6.3.3	Recent changes and developments	170
6.4	Current institutional arrangements in solid waste collection	171
6.5	Basic types and characteristics of solid waste collection	174
6.5.1	Primary storage	175
6.5.2	Mode of waste disposal and collection	176
6.5.3	Frequency	176
6.5.4	Technology	176
6.5.5	Coverage	177
6.5.6	Financial arrangements	178
6.6	Conclusions	181

<b>7</b>	<b>Attitudes and Perceptions Related to Solid Waste Management</b>	<b>183</b>
7.1	Attitudes	183
7.1.1	The attitudes of residents	183
7.1.2	Attitudes of officials	185
7.2	Consumers' view of institutional arrangements in solid waste collection	187
7.2.1	Solid waste collection problems	187
7.2.2	Appreciation of frequency	188
7.2.3	Appreciation of cleanliness	190
7.2.4	Desired improvements (household demand for improved services)	192
7.2.5	Payment of user fees	194
7.2.6	Appreciation of cost, willingness to pay more and cross-subsidisation	195
7.2.7	Affordability	198
7.2.8	Possible improvements	200
7.2.9	Views on privatisation	201
7.2.10	Other issues	202
7.3	Service providers' views on solid waste collection in Accra	203
7.3.1	General characteristics	204
7.3.2	Problems in waste collection	205
7.3.3	The profitability of services	206
7.3.4	Opinions	207
7.4	Policy makers' views on solid waste collection	207
7.4.1	Decentralisation	207
7.4.2	Privatisation	208
7.4.3	Institutional arrangements	208
7.4.4.	The policy makers' perceptions of house-to-house and collective container collection arrangements	209
7.5	Conclusions	210
<b>8</b>	<b>Performance Assessment of Institutional Arrangements in Solid Waste Collection in Accra</b>	<b>211</b>
8.1	Motivating the choice for sustainable development assessment	211
8.2	The financial viability of the institutional arrangement	213
8.3	The quality of the collection service	216
8.4	Employment and labour conditions	217
8.5	Legal and social legitimacy	218
8.6	Prevention of illegal dumping and unhygienic practice	219
8.7	Environmentally sound transportation and disposal	220

8.8	Waste minimisation, recycling and reuse	220
8.9	The relative importance of various institutional arrangements and changes therein	221
8.10	Financial viability of the solid waste collection system	224
8.11	The effectiveness of performance monitoring	229
8.12	Conclusions	230
<b>9</b>	<b>Conclusions and Recommendations</b>	<b>237</b>
9.1	Answers to the research questions	237
9.1.1	Magnitude and major causes of solid waste collection problems in the Accra metropolitan area	238
9.1.2	Scope and characteristics of the institutional arrangements for solid waste collection	242
9.1.3	Stakeholders' perceptions and conflicting interests with regard to the arrangements in solid waste collection	243
9.1.4	The impact of decentralisation and privatisation policies in Ghana on the nature and performance of the institutional arrangements for solid waste collection in Accra Metropolitan Assembly (AMA)	244
9.1.5	The contribution of the institutional arrangements in solid waste collection to urban sustainable development	246
9.2	Linking the findings to the current theoretical debate	249
9.2.1	The drawbacks of decentralisation	249
9.2.2	Private providers perform better	250
9.2.3	The urban governance approach	252
9.2.4	The partnership approach	253
9.2.5	The guiding hand of the state	255
9.3	Policy suggestions derived from the study	256
9.3.1	Policy design and implementation	257
9.3.2	Change in attitudes	257
9.3.3	Supervision, monitoring, evaluating and coordination	257
9.3.4	The viability of the system and increased funding	258
9.3.5	Integrating environmental concerns in planning	261
9.4	Areas for new and additional research	261
9.5	In conclusion	262
