Chapter 1

Introduction

1.1. Amiodarone
1.1.A. Pharmacology of amiodarone
1.1.B. Side Effects
1.1.C. Effect on the thyroid

1.2. Thyroid hormone receptors
1.2.A. TR protein structure
1.2.B. TR gene structure
1.2.C. TR mechanism of action

1.3. Interactions of amiodarone and thyroid hormone receptors
1.3.A. Hypothyroid-like effects of amiodarone
1.3.B. Scope of the thesis

References

Chapter 2

Desethylamiodarone is a noncompetitive inhibitor of the binding of thyroid hormone to the TRβ1 protein
H.C. van Beeren*, O. Bakker and W.M. Wiersinga
Endocrinology 1994; Vol. 134: 1665-1670

Chapter 3

Desethylamiodarone is a competitive inhibitor of the binding of thyroid hormone to the TRα1 protein
H.C. van Beeren, O. Bakker and W.M. Wiersinga
Molecular and Cellular Endocrinology 1995; 112: 15-19

Chapter 4

Structure-function relationship of the inhibition of the 3, 5, 3'-triiodothyronine binding to the TRα1 and TRβ1 by amiodarone analogues
H.C. van Beeren*, O. Bakker and W.M. Wiersinga
Endocrinology 1996; Vol. 137: 2807-2814

Chapter 5

Effect of mutations in the TRβ1 on the inhibition of T3 binding by desethylamiodarone
H.C. van Beeren, O. Bakker, V.K.K. Chatterjee and W.M. Wiersinga
FEBS Lett. 1999; 450:35-38
Chapter 6
Interaction between nuclear hormone receptors and co-activators analysed using a nonradioactive “pull-down” assay
O. Bakker, H.C. van Beeren, T. Emrich, H.-J. Höltke, W.M. Wiersinga
*Anal Biochem.* 1999; 276: 105-106

Chapter 7
Desethylamiodarone interferes with the binding of co-activator GRIP-1 to the β1-thyroid hormone receptor
H.C. van Beeren, O. Bakker and W.M. Wiersinga
*FEBS Lett.* 2000; 481: 213-216

Chapter 8
Dronedarone acts as a selective inhibitor of 3,5,3'-triiodothyronine binding to TRα1: in vitro and in vivo evidence
H.C. van Beeren, W.M.C. Jong, E.Kaptein, T.J. Visser, O. Bakker and W.M. Wiersinga
*Endocrinology* 2003; Vol. 144: 552-558

Chapter 9
General discussion
9.1. Inhibition by amiodarone of the binding of T3 to TRs
9.2. Structure-function relationship in the interaction between amiodarone and the TR isoforms
   9.2.A. Competitive vs. noncompetitive inhibition: differences between TRα1 and TRβ1 isoforms
   9.2.B. Determinants of (non) competitive inhibition: effect of changes in the amiodarone compound or in the receptor protein
9.3. Interference of amiodarone with co-factor binding
9.4. Dronedarone
9.5. Amiodarone and dronedarone as TR antagonists
   9.5.A. Hypothyroid-like effects of amiodarone and dronedarone
   9.5.B. Mechanistic model for the action of nuclear receptor antagonists
9.6. Future perspectives
