List of Tables XI

List of Figures XIII

Chapter 1 Introduction Explaining Electoral Participation 1
1.1 Who Votes? 1
1.2 Why Vote? 1
1.3 A Stable Vote? 3
1.4 Placing the Individual within the Context 7
1.5 Individualizing Context 8
1.6 Making Close Calls 9

Chapter 2 Electoral Participation in the Netherlands: Individual and Contextual Influences 13
2.1 Introduction 13
2.1.1 Explaining Dutch Electoral Participation 14
2.2 A Model Incorporating Individual and Contextual Characteristics 15
2.2.1 Contextual Characteristics 15
2.2.2 Individual Characteristics 18
2.2.3 Mediating the Context through the Individual 19
2.3 Data and Operationalization 20
2.4 Predicting Individual Electoral Participation 23
2.4.1 Contextual Effects 26
2.4.2 Individual-contextual Interactions 26
2.5 Predicting Turnout Levels 27
2.6 Conclusions: Does Context Matter? 28

Chapter 3 Rain Falls on All of Us (But Some Manage to Get More Wet than Others) Individual Variation in Contextual Effects 31
3.1 The Need for Context 32
3.2 What Context, and What Effect? 37
3.2.1 Concurrent Elections 37
3.2.2 Sunday Voting 38
3.2.3 Closeness of the Election 39
3.3 When Theory Meets Practice 40
3.3.1 Methodological Considerations 40
3.3.2 Empirical Complications 41
3.4 Up Close, and Personal: a Close Election Race 43
Chapter 4  Different Races, Different Outcomes?
Assessing the Influence of Closeness at Aggregate Level  
4.1 Why More Turnout in Close Elections?  
4.2 Determining the Closeness of the Election  
4.2.1 Close Enough?  
4.2.2 Measuring Closeness  
4.3 Different Countries, Different Races  
4.3.1 U.S. Presidential Elections  
4.3.2 Great Britain  
4.3.3 Calling a Multi-party Race - The Netherlands  
4.3.4 Ireland: One or More Parties?  
4.3.5 A Scandinavian Two-bloc Race  
4.3.6 Germany: a Race between Parties or Coalitions?  
4.4 Comparing Closeness  
4.4.1 Defining Closeness  
4.4.2 What Makes Closeness Work?  
4.5 Discussion  
4.5.1 Reading Opinion Polls  
4.5.2 Analytical Limitations  
4.5.3 A Further Look at Closeness

Chapter 5  Closeness and Electoral Participation in Great Britain  
5.1 Closeness of Elections in Britain  
5.1.1 What is the Race?  
5.1.2 Double Vision?  
5.1.3 Who is Affected?  
5.2 Analysis  
5.2.1 The Model - Theory and Expectations  
5.2.2 Outcomes - National Level  
5.2.3 Outcomes - Constituency Level  
5.2.4 Cross-level Interactions  
5.3 Predicting Electoral Participation  
5.3.1 High versus Low Involvement  
5.4 Predicting Turnout Levels  
5.5 Conclusions

Chapter 6  Sweden  
6.1 Who is Affected?  
6.2 Data  
6.3 Analysis
6.4 Predicting Electoral Participation
6.4.1 High versus Low Involvement
6.5 Predicting Turnout Levels
6.6 Conclusions

Chapter 7 Conclusions and Discussion: What About the Rain?
7.1 Context and Individual - a Close Enough Look?
7.1.1 Explaining Between-country Differences
7.2 Who may be Affected?
7.3 Conceptualizing Political Context

Appendix
Variables and Data
The Netherlands
Great Britain
Sweden
