Contents

Preface vii

Chapter 1 Introduction 1
1.1 A précis of the plot 1
1.2 A critique of monetising the environment 4
1.3 An overview 7

Part I Theory 11

Chapter 2 Monetary Valuation and Economic Theory 11
2.1 Neoclassical welfare economics 11
2.1.1 Neoclassical basis of monetary valuation methods 14
2.1.2 Problems with neoclassical assumptions about behaviour 20
2.1.2.a Assumptions of choice 21
2.1.2.b Rationality assumption 23
2.1.2.c Strict convexity of indifference curves 26
2.1.2.d Assumption of local non-satiation 28
2.1.2.e Consumer sovereignty 30
2.1.2.f Well-structured preferences 31
2.1.2.g Ceteris paribus, time dimensions and complete certainty 34
2.1.2.h Conclusion 35
2.2 Other economic approaches to monetary valuation 36
2.2.1 Institutional economics 37
2.2.2 Ecological economics 45
## Contents

### Chapter 3  The Contingent Valuation Method

3.1 A classification of valuation methods 53  
3.2 Introduction to the contingent valuation method 56  
3.3 Use and popularity of the contingent valuation method 60  
3.4 A critique of the contingent valuation method 65  
  3.4.1 Embedding effects 66  
  3.4.2 Endowment effects 71  
  3.4.3 Overestimation 77  
  3.4.4 Aggregation issues 82  
3.5 Concluding remarks 85  

### Chapter 4  Alternatives to Contingent Valuation

4.1 Introduction 91  
4.2 Conjoint measurement 93  
  4.2.1 Conjoint measurement as used in this thesis 97  
  4.2.2 Advantages of conjoint measurement over the CVM 101  
4.3 Welfare evaluation method 104  
4.4 Well-being evaluation method 108  
4.5 Closure 112  

### Part II  Empirical studies

### Chapter 5  The IJburg Experiment: CVM versus Conjoint Measurement

5.1 Introduction 117  
5.2 Hypotheses 118  
5.3 Referendum IJburg 119  
5.4 Construction of the questionnaire 121  
  5.4.1 Construction of the contingent valuation question 124  
  5.4.2 Construction of the conjoint measurement question 125  
5.5 Response 128  
5.6 Representativeness of the sample 131  
5.7 Differences between CM and CVM subsamples 132  
5.8 Order effects 134  
5.9 Results of the contingent valuation question 138  
  5.9.1 Mean and total willingness to pay 140  
  5.9.2 Determinants of the willingness to pay 142  
  5.9.3 Starting point bias 144

**Chapter 6**

The Schiphol Experiment: Well-Being Evaluation and Conjoint Measurement

6.1 | Introduction | 167 |
6.2 | The measurement of aircraft noise | 167 |
6.3 | The development of a compensation scheme | 168 |
6.4 | Other valuation studies of aircraft noise nuisance | 171 |
6.5 | The response data for the Schiphol survey | 174 |
| 6.5.1 | Response data per question | 181 |
6.6 | Results of the well-being evaluation method | 185 |
| 6.6.1 | Explanation of W (Well-being) | 189 |
| 6.6.2 | Compensations and the value of insulation differentiated for income positions | 191 |
| 6.6.3 | Compensations and the value of insulation differentiated for housing expenses | 197 |
| 6.6.4 | Compensations and the value of insulation for the average household | 201 |
| 6.6.5 | The costs of compensation to society | 204 |
6.7 | Results of the conjoint measurement question | 205 |
| 6.7.1 | The analysis based on report marks | 207 |
| 6.7.2 | Relating report marks to personal characteristics | 210 |
6.8 | Conclusions | 214 |

Appendix A | Results of the welfare evaluation method | 216 |
Appendix B | Specification of the unreliability of the Ku values lower than 20 | 220 |
Appendix C | Total number of residences in the Schiphol region and Ku values | 223 |
Chapter 7  Conclusions and Summary  233
  7.1  Monetary valuation of the environment  233
  7.2  Debate regarding the pros and cons of the CVM  235
  7.3  Alternatives to the CVM  240
  7.4  Empirical studies  243

Appendix I  The IJburg Questionnaire  251

Appendix II  The Schiphol Questionnaire  259

Bibliography  275

Nederlandse Samenvatting  295
