Appendix II The Schiphol Questionnaire

This appendix contains the complete text of the Schiphol questionnaire. First, the introductory letter is shown, followed by the text of the questionnaire. There are twenty-five versions of the questionnaire. Here, version P is given.

Dear Madam, Dear Sir,

Within the context of a research project on 'Satisfaction with the living environment', a sample survey is held among Dutch households. Your household has been selected to be part of this survey. We sincerely hope that a member of your household is willing to participate in the survey. We would greatly appreciate it if the head of the family (that is, the main breadwinner or his/her partner) fills in the questionnaire and returns it to Intomart in the enclosed return envelop, within two weeks after having received the questionnaire.

Before filling in the questionnaire, we kindly request you to carefully read the instructions given below. Only correctly filled in questionnaires can be processed electronically. Therefore it is of the utmost importance that you adhere to the instructions.

(The instructions concerned have been left out of the translation)

ANY REMARKS OF YOUR OWN CONCERNING THE QUESTIONNAIRE

If you wish to make any remarks concerning the questionnaire itself, or concerning the research project, please write these down on the back of the last page of this questionnaire. We kindly request you not to make any remarks in the margins next to the questions, or between the questions contained in the questionnaire.

50. Could you please give report marks to the four living situations, between 1 and 10, where 10 is the best possible situation for you, and 1 is the worst possible situation? So, please grade your first – fourth choice with marks between 1 and 10, allotting a lower mark to each subsequent choice (the report mark for the second choice has to be lower than the report mark for your first choice, et cetera).
