Federated Information Management for virtual enterprises

Garita Rodriguez, C.O.

Citation for published version (APA):
Contents

1 Introduction
1.1 The VE Paradigm ........................................ 1
1.1.1 VE Characterization .................................. 4
1.1.2 VE Life Cycle ........................................ 5
1.1.3 VE Member Roles ..................................... 9
1.2 Thesis Objectives and Proposed Approach .................. 10
1.2.1 Thesis Objectives .................................... 11
1.2.2 Summary of General Solution Approach ................. 13
1.3 Related Projects and Scientific Publications ............... 14
1.3.1 PRODNET II Project Overview ....................... 14
1.3.2 Other Related Projects ................................ 17
1.3.3 Summary of Related Scientific Publications ............ 19
1.4 Structure of Thesis Document .......................... 20

2 Distributed Information Management Approaches for Virtual Enterprises
2.1 Introduction .............................................. 23
2.2 VE Related Information Technology ..................... 26
2.2.1 Approaches for Distributed Information Management .... 27
2.2.2 Related Information Models and Standards ............ 31
2.2.3 Other related technologies and tools .................. 35
2.3 A Framework for Information Management Evaluation of VE Infrastructure ....................... 39
2.3.1 Specific VE Information Management Platforms ....... 40
2.3.2 Characterization and Evaluation of VE infrastructures .... 48
2.4 Conclusions and Future Directions ...................... 53

3 Analysis of VE Information Management Requirements and the Proposed Federated Approach 57
3.1 Introduction .............................................. 57
3.2 Industrial Manufacturing VE Scenarios .................... 58
3.2.1 Scenario Case 1 – Interactions between VE Members ..... 60
3.2.2 Scenario Case 2 – VE Order Related Functionalities ..... 60
