## Contents

5.2.2 Semantics and ontology ........................................ 108
5.3 Discussion ....................................................... 113
  5.3.1 Theoretical status ........................................... 113
  5.3.2 The interpretation of probability .......................... 117
  5.3.3 Experimental control and local homogeneity ............. 119
  5.3.4 Validity and the relation of measurement ............... 122

6. The problem of validity ........................................... 127
  6.1 Introduction ................................................... 127
  6.2 Ontology versus epistemology ................................ 129
  6.3 Reference versus meaning ..................................... 132
  6.4 Causality versus correlation .................................. 135
  6.5 Tests versus interpretations .................................. 140
  6.6 Simplicity versus completeness ............................... 143
  6.7 Discussion ................................................... 151

7. Appendix A. Functional Thought Experiments .................. 155
  7.1 Introduction ................................................... 155
  7.2 The Frequentist Conception of Probability .................. 157
  7.3 The Imaginary Long Run: Lord & Novick's Brainwash ........ 157
  7.4 The Nature of Statistical Thought Experiments ............ 159
  7.5 Discussion ................................................... 160

8. Appendix B. Different kinds of DIF ............................... 163
  8.1 Introduction ................................................... 163
  8.2 Absolute and relative forms of bias ......................... 165
  8.3 The Relation between Absolute and Relative Bias .......... 168
  8.4 DIF-Detection and Modeling .................................. 172
  8.5 Illustration 1 ................................................ 174
  8.6 Illustration 2 ................................................ 177
  8.7 Discussion ................................................... 178
  8.8 Appendix ...................................................... 182

9. References ......................................................... 185

10. Nederlandse Samenvatting ......................................... 197
