# CONTENTS

1. **Introduction** .................................................. 1  
   1.1 Philosophy of science’s insoluble puzzle .................. 1  
   1.2 Theoretical terms in psychology ............................ 2  
   1.3 The function of models in psychology ....................... 4  
   1.4 Measurement models ........................................ 7  
   1.5 Outline of this book ....................................... 9  

2. **True scores** .................................................. 13  
   2.1 Introduction ............................................... 13  
   2.2 Three perspectives on the true score ...................... 15  
     2.2.1 The formal stance .................................... 15  
     2.2.2 The empirical stance ................................ 22  
     2.2.3 The ontological stance ................................ 29  
   2.3 Discussion .................................................. 40  

3. **Latent variables** .............................................. 43  
   3.1 Introduction ............................................... 43  
   3.2 Three perspectives on latent variables ..................... 45  
     3.2.1 The formal stance .................................... 45  
     3.2.2 The empirical stance ................................ 49  
     3.2.3 The ontological stance ................................ 50  
   3.3 Implications for psychology ................................ 67  
   3.4 Discussion .................................................. 70  

4. **Scales** ......................................................... 75  
   4.1 Introduction ............................................... 75  
   4.2 Three perspectives on measurement scales .................. 78  
     4.2.1 The formal stance .................................... 78  
     4.2.2 The empirical stance ................................ 84  
     4.2.3 The ontological stance ................................ 87  
   4.3 Discussion .................................................. 100  

5. **Relations between the models** ............................... 103  
   5.1 Introduction ............................................... 103  
   5.2 Levels of connection ....................................... 104  
     5.2.1 Syntax .................................................. 104
