CONTENTS

9 General Introduction and outline of the thesis
Chapter 1

19 The Lichtenstein inguinal hernia repair
Chapter 2

Decrease in operations for recurrent hernia.
Chapter 3

41 Inguinal hernia surgery in The Netherlands.
A baseline study before the introduction of the Dutch Guidelines
Chapter 4

55 Do guidelines influence results in inguinal hernia treatment?
A descriptive study of 2535 hernia repairs in one teaching hospital from 1994-2004
Chapter 5

69 The role of antibiotic prophylaxis in prevention of wound infection after Lichtenstein open mesh repair of primary inguinal hernia.
A multicenter double-blind randomized controlled trial
Chapter 6

83 Systematic review of all antibiotic studies in Lichtenstein hernia repair
Chapter 7

95 Complications after Lichtenstein inguinal hernia repair.
A comparison of teaching and non teaching hospitals in a prospective study.
Chapter 8

113 What is the quality of an unfunded multicenter randomized trial in general hospitals?
An audit.
Chapter 9

125 Summary and conclusions
Samenvatting en conclusies
