You will be contacted as soon as possible.

The illustration depicts a cross-section of a blood vessel. The vessel lumen is filled with numerous red blood cells, shown as red biconcave discs. The vessel wall is rendered with grey, fibrous textures. Various biological components are scattered throughout the scene: purple beaded chains, yellow rectangular structures, blue Y-shaped molecules, green oval shapes, and a syringe-like structure with a needle. The overall style is a detailed, textured drawing, possibly using colored pencils or fine markers.

Regulation of complement activation on red blood cells

Regulation of complement activation on red blood cells

ACADEMISCH PROEFSCHRIFT

ter verkrijging van de graad van doctor
aan de Universiteit van Amsterdam
op gezag van de Rector Magnificus
prof. dr. ir. K.I.J. Maex
ten overstaan van een door het College voor Promoties ingestelde commissie,
in het openbaar te verdedigen in de Agnietenkapel
op vrijdag 11 januari 2019, te 14.00 uur

door

Astrid Johanna Franciska Thielen
geboren te Venray

PROMOTIECOMMISSIE

Promotor(es):	Prof. dr. S.S. Zeerleder Prof dr. S.M. van Ham	AMC - Universiteit van Amsterdam Universiteit van Amsterdam

TABLE OF CONTENTS

Chapter 1	Introduction and scope of this thesis	7
Chapter 2	Consequences of dysregulated complement regulators on red blood cells	19
Chapter 3	Complement regulator CD46 expression is lost gradually during erythropoiesis and enucleation	47
Chapter 4	Complement deposition and IgG binding on stored red blood cells are independent of storage time	57
Chapter 5	Blocking the binding region domains 6-8 of factor H inhibits its complement regulation function on human red blood cells	73
Chapter 6	CRISPR/Cas9 generated human CD46, CD55 and CD59 knockout cell lines as a tool for complement research	83
Chapter 7	The amplification loop is not required for efficient classical complement pathway activation	101
Chapter 8	Summarizing discussion	123
Appendix	English summary	141
	Nederlandse samenvatting	145
	List of publications	149
	List of co-authors and their contribution to the manuscript	151
	PhD portfolio	155
	Curriculum Vitae	157
	Dankwoord	159
