Contents

Chapter 1    Introduction

Clinical consequences of ovarian hyperstimulation

Hesham Al-Inany, Mohamed Aboulghar, Ragaa Mansour; Gamal Serour.  

Chapter 3    Ovulation induction in the new millennium: recombinant follicle stimulating hormone versus human menopausal gonadotropin.  

Chapter 4    hMG versus recFSH for ovulation induction in developing countries: a cost-effectiveness analysis based on the results of a recent meta-analysis.  

Chapter 5    Recombinant versus urinary human chorionic gonadotrophin for ovulation induction in assisted conception.  
Hesham Al-Inany, Mohamed A Aboulghar, Ragaa T. Mansour, Michelle Proctor  

Chapter 6    Gonadotrophin-releasing hormone antagonists for assisted conception.  

Chapter 7    Agonist vs antagonist: a randomized controlled trial and cost effectiveness analysis.  

Chapter 8    Optimizing GnRH antagonist administration: meta-analysis of fixed versus flexible protocol.  
Hesham Al-Inany, Mohamed A Aboulghar, Ragaa T. Mansour, Gamal I. Serour,  
### Chapter 9
Increasing the dose of human menopausal gonadotrophins on day of GnRH antagonists administration: a randomized controlled trial.
