Disclaimer/Complaints regulations
If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: http://uba.uva.nl/en/contact, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.
Contents

1 Introduction 8
  1.1 Background 8
  1.2 Problems with processes underlying re-use 8
  1.3 Key solution: index 12
  1.4 Position of this thesis 12
  1.5 Approach 14

2 Theoretical analysis of material handling processes 16
  2.1 Introduction 16
  2.2 Types of material 16
  2.3 Indexing framework 20
  2.4 Available annotation structures and indexing vocabularies 23
  2.5 The analysis process 28
  2.6 The storage process 30
  2.7 The retrieval process 31
  2.8 The re-use process 32
  2.9 Conclusions 35

3 The role of ontologies in the material handling processes 36
  3.1 Introduction 36
  3.2 Ontology types in a knowledge-rich annotation structure 37
  3.3 Using ontologies for analysis, indexing, design and retrieval 45
  3.4 IMAT: re-use of technical manuals in maintenance training 48
  3.5 Conclusions 64

4 Consistency in indexing with ontologies 65
  4.1 Introduction 65
  4.2 Consistency in indexing with flat value lists 66
  4.3 Consistency in indexing with structured value lists 71
  4.4 Conclusions 78
