Summary ................................................................................................................................. 11

Chapter 1: Introduction: large-scale development projects and new urbanity ..... 21
  1.1 Introduction ........................................................................................................ 21
  1.2 Some constants and variations of half a century of large-scale development projects ..................................................................................................................... 24
  1.3 Large-scale development projects and the changing conditions of urban development ............................................................................................................. 29
  1.4 Critically assessing large-scale development projects ....................................... 33
  1.5 Defining our research perspective: studying new urbanity ................................ 34
  1.6 Bringing the city to the periphery: defining new urbanity ................................. 36
  1.7 Three innovative large-scale urban projects....................................................... 39

Chapter 2: Conceptual framework: a multi-layered analysis of ambitions for new urbanity ....................................................................................................................... 41
  2.1 Introduction ........................................................................................................ 41
  2.2 Context level: connections to the metropolitan action space ............................. 44
  2.3 Operational dimension: practices of interaction in projects............................... 48
  2.4 Social norms as an intermediary concept........................................................... 55
  2.5 Extended conceptual framework and research questions................................... 63
  2.6 Comparing cases ............................................................................................... 65

Chapter 3: Amsterdam Zuidas .................................................................................. 67
  3.1 Introduction ........................................................................................................ 67
  3.2 From controlled urbanization towards polycentricism in the Amsterdam region ............................................................................................................................... 68
  3.3 Initiating Zuidas ................................................................................................. 72
  3.4 Connectivity to the metropolitan action space ................................................... 75
  3.5 Operational domain .......................................................................................... 84
  3.6 Social norms on new urbanity in Zuidas .......................................................... 107
  3.7 Conclusion ........................................................................................................114
Chapter 4: Copenhagen Ørestad
4.1 Introduction
4.2 From ‘welfare planning’ to ‘entrepreneurialism’ in the Copenhagen region
4.3 Initiating Ørestad
4.4 Connectivity to the metropolitan action space
4.5 Operational domain
4.6 Social norms on new urbanity in Ørestad
4.7 Conclusion

Chapter 5: Barcelona Forum
5.1 Introduction
5.2 Urban development in Barcelona
5.3 Initiating the Forum project
5.4 Connectivity to the metropolitan action space
5.5 Operational domain
5.6 Social norms on new urbanity in Forum
5.7 Conclusion
5.8 Epilogue

Chapter 6: Conclusions: the disconnected innovation of new urbanity
6.1 Comparing strategic framing between cases
6.2 Comparing the operational domains
6.3 Social norms on new urbanity
6.4 Conclusion
6.5 Theoretical and methodological reflections
6.6 Possible further research
6.7 Possible orientations as regards practice: new urbanity in large-scale development projects

Appendix: Interviews
Nederlandse samenvatting
