Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

Contents

Acknowledgments	ix
1 Introduction	1
2 Dynamic Logic of Preference Upgrade	15
2.1 Introduction: changing preferences	15
2.2 Epistemic preference logic	18
2.3 Modelling preference upgrade	21
2.4 Dynamic epistemic upgrade logic	26
2.5 Relation change and product upgrade	30
2.6 Illustrations: defaults and obligations	34
2.7 Related work	37
2.8 Conclusion	38
3 Preference, Priorities and Belief	39
3.1 Motivation	39
3.2 From priorities to preference	41
3.3 Order and a representation theorem	45
3.4 Preference and belief	47
3.5 Preference changes	52
3.5.1 Preference change due to priority change	52
3.5.2 Preference change due to belief change	53
3.6 Extension to the many agent case	56
3.7 Preference over propositions	59
3.8 Discussion and conclusion	65
4 Comparisons and Combinations	67
4.1 Structured models	70

4.2	Moving between levels: From propositional priorities to object preferences	71
4.3	Going from world preference to propositional priorities	80
4.4	Dynamics at two levels	84
4.5	An alternative format: ‘Priority Product Update’	93
4.6	Comparing logical languages	96
4.7	Preference meets belief	98
4.8	Combining preference over objects and preference over possible worlds	108
5	Diversity of Logical Agents in Games	111
5.1	Introduction: varieties of imperfection	111
5.2	Imperfect information games and dynamic-epistemic logic	112
5.3	Update for perfect agents	116
5.4	Update logic for bounded agents	120
5.5	Creating spectra of agents by modulating product update rules	126
5.6	Mixing different types of agents	129
5.7	Conclusion	132
6	Diversity of Agents and their Interaction	135
6.1	Diversity inside logical systems	135
6.2	Sources of diversity	137
6.3	Dynamic logics of information update	138
6.4	Diversity in dynamic logics of belief change	149
6.5	From diversity to interaction	153
6.6	Interaction between different agents	154
6.7	Conclusion and further challenges	164
7	Conclusions and Future Work	167
	Bibliography	171
	Index	187
