It is not permitted to download or to forward/distribute the text or part of it without the consent of the author(s) and/or copyright holder(s), other than for strictly personal, individual use, unless the work is under an open content license (like Creative Commons).

Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

Contents

Chapter 1	General introduction	7
Chapter 2	Hyper-reactive PMNs in Fc γ RIIa 131H/H genotype periodontitis patients	23
Chapter 3	Expression of Fc γ Rs and mCD14 on polymorphonuclear neutrophils and monocytes may determine periodontal infection	45
Chapter 4	Soluble CD14 as a possible molecular link between atherosclerosis and chronic infectious diseases: periodontitis as model	69
Chapter 5	Periodontitis is associated with platelet activation	87
Chapter 6	Elevated platelet and leukocyte response to oral bacteria in periodontitis	105
Chapter 7	Summary and discussion	123
	Samenvatting	135
	Acknowledgements	147
	List of publications	151
