# Contents

1 Motivation and Outline 1
   1.1 Introduction and Motivation .............................................. 1
   1.2 Analytical Concepts ...................................................... 3
   1.3 Outline of Dissertation .................................................. 4

2 Foundations of Banking 7
   2.1 Introduction ............................................................... 8
   2.2 The Role of Banks in Monitoring ......................................... 9
      2.2.1 Model specification .................................................. 10
      2.2.2 Preliminary discussion: Monitoring incentives ................... 11
      2.2.3 Diversified intermediaries ......................................... 12
      2.2.4 Information acquisition: Intermediaries as information sellers ... 15
      2.2.5 Asset transformation ................................................. 16
   2.3 Bank Fragility and Regulation ........................................... 18
      2.3.1 Liquidity provision .................................................. 18
      2.3.2 Sunspot bank runs vs. information-based bank runs ............... 22
      2.3.3 Cost of bank runs and regulatory resolutions .................... 23
   2.4 Is There Something Good about the SSC? .................................. 24
      2.4.1 Analysis ............................................................... 24
      2.4.2 Sequential service constraint: Further thoughts .................. 28
   2.5 Bank Capital ............................................................... 36
      2.5.1 Bank capital ........................................................... 36
      2.5.2 Bank capital and bank runs ......................................... 39
      2.5.3 Capital regulation .................................................... 41
      2.5.4 Deposit insurance reconsidered ..................................... 42
   2.6 Conclusion ................................................................. 44
   2.7 Appendix ................................................................. 45

3 Competition and Entry in Banking: Implications for Capital Regulation 49
   3.1 Introduction ............................................................... 50
   3.2 The Model ................................................................. 52
      3.2.1 Preliminaries ........................................................... 52
3.2.2 Model details .................................................. 53
3.3 Initial Analysis: Some Basic Results .......................... 55
3.4 Competition and the Effectiveness of Capital Regulation ....... 59
3.5 Endogenous Entry ............................................. 62
3.6 Social Welfare and Empirical Predictions .................... 64
   3.6.1 Social welfare ........................................... 64
   3.6.2 Empirical predictions .................................. 66
   3.6.3 The impact of heterogeneity ......................... 67
3.7 Conclusions .................................................. 68
3.8 Appendix A .................................................. 70
3.9 Appendix B: Social Welfare Analysis ......................... 78
   3.9.1 Banks of equal type .................................... 78
   3.9.2 Good and bad banks ................................. 84
   3.9.3 Welfare with endogenous entry ..................... 91
   3.9.4 Influence on the real economy ....................... 92
4 Regulation of a Competitive Banking System ....................... 95
4.1 Introduction ................................................. 96
4.2 Rationales for Bank Regulation ................................ 97
4.3 Competition, Efficiency, and Bank Stability .................. 98
   4.3.1 Competition and efficiency ............................ 98
   4.3.2 Competition and stability ............................ 100
4.4 Regulatory Barriers to Competition ........................... 101
4.5 The Effect of Competition on the Effectiveness of Regulation .... 104
   4.5.1 Competition and deposit insurance .................... 104
   4.5.2 Competition and capital regulation ................... 106
4.6 Regulation in the Presence of Consolidation ................... 109
   4.6.1 The effectiveness of current regulation in the consolidated banking ind-
       ustry .................................................. 109
   4.6.2 Current regulatory tools and the increasing scope of financial conglom-
       erates .................................................. 112
4.7 Conclusions .................................................. 113
5 Competition and Entry in a Spatial Model with Applications to Banking 115
5.1 Introduction .................................................. 116
5.2 The Model .................................................. 119
   5.2.1 Preliminaries ........................................... 119
   5.2.2 Model details ........................................... 120
5.3 Some Preliminaries ........................................... 121
   5.3.1 Price offers and profits ................................ 121
   5.3.2 Endogeneous entry ..................................... 123
## Table of Contents

5.3.3 Social welfare .................................. 124
5.4 Main Analysis ..................................... 124
  5.4.1 Homogeneous firms ............................. 124
  5.4.2 Heterogeneous firms ............................. 125
5.5 Extensions and Applications ....................... 129
  5.5.1 Extension: Firm size and demand density .......... 129
  5.5.2 Application: Bank regulation ..................... 130
5.6 Conclusions ...................................... 133
5.7 Appendix ....................................... 135

6 Bank Foreign Entry and the Role of Bank Capital 143
  6.1 Introduction ..................................... 144
  6.2 Foreign Entry .................................... 145
    6.2.1 One sided competition .................................. 145
    6.2.2 Asymmetric competition with late entrants .......... 148
    6.2.3 Different regulation across countries ................. 149
  6.3 Expropriation ..................................... 151
    6.3.1 Limited market share ............................. 151
    6.3.2 Biased capital regulation ........................... 152
  6.4 Staying Power of a Bank ........................... 154
  6.5 Conclusions ...................................... 156
  6.6 Appendix ....................................... 157

7 Demand Deposits and Bank Monitoring 167
  7.1 Introduction ..................................... 168
  7.2 Model Specification ............................... 170
    7.2.1 Preliminaries .................................. 170
    7.2.2 Model details .................................. 170
  7.3 Optimal Bank Borrowing ............................. 172
    7.3.1 Long-term borrowing ............................. 172
    7.3.2 Short-term borrowing: A single investor ............. 173
    7.3.3 Short-term borrowing: Multiple investors ............ 177
    7.3.4 Demand deposits .................................. 179
  7.4 Extensions and Empirical Predictions .................. 181
    7.4.1 Borrowers with different liquidation costs .......... 181
    7.4.2 Implications and empirical predictions ............... 182
  7.5 Conclusions ...................................... 182
  7.6 Appendix ....................................... 184
# The Maturity of Monitored Finance: Covenants and Insufficient Liquidation

8.1 Introduction .................................... 188  
8.2 Model Specifications ............................... 191  
8.3 Analysis ........................................ 193  
  8.3.1 Long-term contract ............................ 193  
  8.3.2 Short-term contract ............................ 196  
8.4 Contract Choice .................................. 199  
8.5 Model Extensions and Empirical Predictions ................. 202  
  8.5.1 Costly covenants ............................. 202  
  8.5.2 Empirical predictions and evidence ............... 203  
8.6 Conclusions ..................................... 205  
8.7 Appendix ........................................ 206
