Floris Roelofsen (1980) obtained a BSc degree in Applied Mathematics and an MSc degree in Computer Science at the University of Twente, and another MSc degree in Logic at the ILLC, University of Amsterdam (all cum laude). He also briefly studied film and documentary at the AKI Academy for Visual Arts in Enschede, and contemporary ballet at the Academy for Performing Arts in Amsterdam, and traveled around the world as a fashion model for several years.

Floris was a visiting scholar at the University of Otago, New Zealand, at the Institute for Scientific and Technological Research in Trento, Italy, at the Rey Juan Carlos University in Madrid, and at Harvard University. At Harvard, he also taught a graduate course on computational linguistics, together with Barbara Grosz. His publications cover a variety of topics, ranging from linguistics to artificial intelligence and logic.

Besides studying, Floris is very fond of sports. As a teenager, he played soccer for AZ, one of the top professional teams in the Netherlands. Later, he tried windsurfing, dancing, and finally became a dedicated cyclist. He made several trips on his bike, through New Zealand, Southern Europe, Northern California, and most recently through Patagonia.

Floris lives in Amsterdam with his girlfriend Ana, who is a PhD student in linguistics at Utrecht University, and his sister Eva, who is a musical artist.
