It is not permitted to download or to forward/distribute the text or part of it without the consent of the author(s) and/or copyright holder(s), other than for strictly personal, individual use, unless the work is under an open content license (like Creative Commons).

Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

Table of Contents

Chapter 1	General Introduction	9
Chapter 2	Alzheimer's disease and adult neurogenesis: Are endogenous stem cells part of the solution?	41
	Marlatt MW, Hoozemans JJM, Veerhuis R, Lucassen PJ	
	<i>US Neurol</i> , 2009;5(1):12-14	
Chapter 3	Distinctive structural plasticity in the hippocampus of middle-aged common marmoset (<i>Callithrix jacchus</i>)	51
	Marlatt MW, Philippens I, Manders E, Czeh B, Joels M, Krugers H, Lucassen PJ	
	<i>Exp Neurol</i> . 2011 Aug; 230(2): 291-301.	
Chapter 4	Iba1+ microglia proliferate in the human hippocampus in aged individuals with Alzheimer pathology	81
	Marlatt MW, Bauer J, Aronica E, van Haastert ES, Hoozemans JJM, Joels M, Lucassen PJ	
	<i>Submitted</i>	
Chapter 5	Comparison of effects of fluoxetine, duloxetine, and running on neurogenesis in mice	105
	Marlatt MW, Lucassen PJ, van Praag H	
	<i>Brain Res</i> . Jun 23 2010; 1341: 93-9	

Chapter 6	Running throughout middle-age improves memory function, hippocampal neurogenesis, and BDNF levels in female C57Bl6 mice	121
	Marlatt MW, Potter M, Lucassen PJ, van Praag H	
	<i>Dev. Neurobiol. 2012 Jan 17 Epub ahead of print</i>	
Chapter 7	Neurogenesis and Alzheimer disease mouse models: Biology and pathophysiology in mice and men	143
	Marlatt MW, Lucassen PJ	
	<i>Curr Alzheimer Res. 2010 Mar; 7(2):113-125</i>	
Chapter 8	Prolonged running increases neurogenesis but fails to induce BDNF or alter neuropathology in the 3xTg mouse model of Alzheimer disease	179
	Marlatt MW, Potter M, Bayer TA, van Praag H, Lucassen PJ	
	<i>Submitted</i>	
Chapter 9	General Discussion	211
	General Summary	245
	Summary in Dutch/ Nederlandse Samenvatting	249
	Dedication	255
	Acknowledgements	256
	Special thanks	257
	Curriculum vitae	259
	List of Publications	261
