Contents

1	Introduction	1
1.1	Why are fiscal rules and restrictions implemented?	2
1.1.1	Deficit biases and other motivations on why to implement fiscal rules and restrictions	3
1.2	How are fiscal rules and restrictions implemented?	6
1.2.1	Classes of fiscal restrictions	6
1.2.2	Flexibility of fiscal restrictions and countercyclical fiscal policy . . .	11
1.2.3	Credibility and enforcement of fiscal rules and restrictions	11
1.2.4	Guidelines and optimal design of fiscal rules and restrictions	13
1.2.5	Subnational fiscal policy restrictions	16
1.3	Where are fiscal rules implemented?	17
1.3.1	The Stability and Growth Pact	17
1.3.2	Other fiscal constraints in the world	22
2	A comparison of debt versus primary-deficit constraints	35
2.1	Introduction	36
2.2	The model	37
2.2.1	The private sector	38
2.2.2	The government	38
2.2.3	Equilibrium	40
2.2.4	Equilibrium under a non-myopic government	40
2.3	A myopic government	41
2.3.1	Debt constraints	42
2.3.2	Deficit constraints	43
2.3.3	The solution	43
2.4	Welfare	45
2.5	Numerical evaluation	45
2.5.1	Calibration	45
2.5.2	Results	47
2.6	Conclusion	52
2.7	Tables and figures	53
	Appendices to Chapter 2	62
2.A	Solution for the non-myopic government	62
2.B	Intertemporal budget constraint under debt sanction	65
2.C	Intertemporal budget constraint under deficit sanction	66
2.D	Deterministic steady state under debt-based sanction	67
2.E	Deterministic steady state under deficit-based sanction	68
2.F	Stochastic steady state with debt-based sanction	69

2.F.1	First-order approximation of (2.26)	70
2.F.2	Second-order approximation of (2.26)	76
2.F.3	Stochastic steady state	98
2.F.4	Stochastic steady state of government expenditure with debt-based sanction	99
2.G	Stochastic steady state with primary deficit-based sanction	102
2.G.1	First-order approximation of (2.29)	103
2.G.2	Second-order approximation of (2.29)	107
2.G.3	Unconditional expectation of the primary deficit	122
2.G.4	Stochastic steady state of government expenditure with deficit-based sanction	124
2.H	Welfare analysis	126
2.H.1	Welfare in the debt-based sanction case	127
2.H.2	Welfare in the primary deficit-based sanction case	128
3	The political economy of structural reforms under a deficit restriction	131
3.1	Introduction	132
3.2	The model	133
3.2.1	Private agents	134
3.2.2	The Parties	136
3.2.3	The timing	138
3.3	The social Planner solution	139
3.4	Solution with a partisan government	140
3.4.1	The deficit decision	140
3.4.2	The choice of compensation	142
3.5	Comparative statics	143
3.5.1	Tighter enforcement of the deficit restriction	144
3.5.2	Increased income uncertainty	145
3.5.3	Reduced income inequality	145
3.6	Welfare effects	146
3.7	Conclusion	149
3.8	Table	152
	Appendices to Chapter 3	153
3.A	Optimal deficit under re-election of initial incumbent in period 1	153
3.B	Optimal deficit under no re-election in period 1	153
3.C	Choice of η	154
3.C.1	Proof that (3.23) has at most one solution	157
3.D	Comparative statics	158
3.D.1	Effect of k on η , b^R and b^{NR}	158
3.D.2	Effect of k on the probability of re-election	162
3.D.3	Effect of $\bar{\varepsilon}$ on η , b^R and b^{NR}	162
3.D.4	Effect of $\bar{\varepsilon}$ on the probability of re-election	166
3.D.5	Effect of y^m on η , b^R and b	166
3.D.6	Effect of y^m on the probability of re-election	170
3.E	Welfare analysis	170
3.E.1	Effect of k on the expected social welfare	170
3.F	Numerical check of Proposition 3.1 for $p < 1$	172
3.G	Extensions and a variation	173

3.G.1	A contingent deficit restriction	173
3.G.2	Targeting compensation	175
3.G.3	Pecuniary sanctions	176
3.H	A contingent deficit restriction – derivations	177
3.H.1	Comparative statics	178
3.I	Fines in the government budget constraint – derivations	182
3.I.1	Effect of k on η , b^R , b^{NR} and $\Pr(R)$	183
4	How effective have Europe’s fiscal restrictions been?	187
4.1	Introduction	188
4.2	Empirical strategy and methodology	189
4.2.1	Research questions	189
4.2.2	The fiscal reaction function	191
4.2.3	Estimation procedure	194
4.2.4	Data and descriptive statistics	195
4.3	Estimation results	198
4.3.1	Effects of the MT and the SGP on the Euro-11	198
4.3.2	Comparison of the Euro-11 with other OECD countries	200
4.4	Robustness tests	205
4.5	Conclusion	209
4.6	Tables and figures	211
	Appendices to Chapter 4	224
4.A	Dataset	224
4.A.1	List of variables	224
4.B	Instrumental variables	227
4.C	Estimations for EU-14	229
4.D	Estimations for OECD-6	232
4.E	Estimation for the OECD-17	232
4.F	Robustness tests	236
4.F.1	Additional economic variables	236
4.F.2	Additional political variables	252
4.F.3	Heterogeneity of output gap and inflation for Euro-11	270
4.G	Unit root tests	272
5	Conclusion	275
	Bibliography	279
	Samenvatting (summary in Dutch)	289
