Correction for 'Separately doped upconversion-C₆₀ nanoplateform for NIR imaging-guided photodynamic therapy of cancer cells' by Xiaomin Liu et al., Chem. Commun., 2013, 49, 3224-3226.

The authors regret that some incorrect data were included in Fig. S9 in the original version of the ESI for their article. Although this did not affect the discussion or conclusions presented in the original article, the authors have corrected the time resolved data and these correct data are now presented in the updated version of their ESI, which is available online.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
