Bewick’s swans in a changing world

Species responses and the need for dynamic nature conservation

Rascha J.M. Nuijten
Bewick’s swans in a changing world
Species responses and the need for dynamic nature conservation
The research presented in this thesis was carried out at the Department of Animal Ecology of the Netherlands Institute of Ecology (NIOO-KNAW).

The research was funded by the Netherlands Organisation for Scientific Research (NWO-NPP grant 866.15.206 awarded to B.A. Nolet). GPS-GSM collars were developed and manufactured by Theo Gerrits (madebytheo).

This thesis should be cited as:

Printing: Ridderprint BV – www.ridderprint.nl

Illustrations: Manon Kaandorp (chapter covers), Niek van Rabenswaaij (cover design) and Rascha Nuijten (cover illustration and introduction Fig. 1.1)

ACADEMISCH PROEFSCHRIFT

ter verkrijging van de graad van doctor
aan de Universiteit van Amsterdam
op gezag van de Rector Magnificus
prof. dr. ir. K.I.J. Maex
ten overstaan van een door het College voor Promoties ingestelde commissie,
in het openbaar te verdedigen in de Agnietenkapel
op dinsdag 8 september 2020, te 12.00 uur
door
Rascha Johanna Maria Nuijten
geboren te Tilburg
Promotiecommissie

Promotor: prof. dr. B.A. Nolet, Universiteit van Amsterdam

Copromotor: dr. H.P. van der Jeugd, Nederlands Instituut voor Ecologie

Overige leden: prof. dr. ir. W. Bouten, Universiteit van Amsterdam
prof. dr. J.Z. Shamoun-Baranes, Universiteit van Amsterdam
dr. ir. E.E. van Loon, Universiteit van Amsterdam
prof. dr. R.P.B. Foppen, Radboud Universiteit Nijmegen
prof. dr. ir. C. Both, Rijksuniversiteit Groningen
prof. dr. A.D. Fox, Aarhus University

Faculteit der Natuurwetenschappen, Wiskunde en Informatica

</table>
Birds were flying from continent to continent long before we were. They reached the coldest place on Earth, Antarctica, long before we did. They can survive in the hottest of deserts. Some can remain on the wing for years at a time. They can girdle the globe. Now, we have taken over the earth and the sea and the sky, but with skill and care and knowledge, we can ensure that there is still a place on Earth for birds in all their beauty and variety – if we want to – and surely, we should.

– sir David Attenborough
