Tracking age and gender inequality in education

ACADEMISCH PROEFSCHRIFT
ter verkrijging van de graad van doctor
aan de Universiteit van Amsterdam
op gezag van de Rector Magnificus
prof. dr. ir. K.I.J. Maex

ten overstaan van een door het College voor Promoties ingestelde
commissie, in het openbaar te verdedigen in de Agnietenkapel
op vrijdag 25 september 2020, te 13:00 uur

door
Lotte Scheeren
geboren te Sliedrecht

Promotiecommissie

Promotor:	prof. dr. H.G. van de Werfhorst	Universiteit van Amsterdam
Copromotor:	dr. T. Bol	Universiteit van Amsterdam
Overige leden:	prof. dr. C. Buchmann	The Ohio State University
	prof. dr. M. Kalmijn	Universiteit van Amsterdam
	prof. dr. M. Kremer	Universiteit van Amsterdam
	dr. S. Steinmetz	University of Lausanne
	dr. M.C.M. Turkenburg	Sociaal Cultureel Planbureau

Faculteit der Maatschappij- en Gedragwetenschappen

Contents

Chapter	1	Synthesis	15
	1.1	Introduction	16
	1.2	Gender in context	17
	1.3	Gender inequality in education	20
	1.4	The role of the education system	21
	1.5	Research design	25
	1.6	Four empirical studies	29
	1.7	Five lessons learned	32
	1.8	Future research	35
Chapter	2	The gender revolution in context: How later tracking in education benefits girls	39
	2.1	Introduction	40
	2.2	Theory	41
	2.3	Data and methods	46
	2.4	Results	52
	2.5	Conclusion and discussion	62
Chapter	3	Female advantage and disadvantage: The role of educational tracking in vertical and horizontal sex segregation in education	67
	3.1	Introduction	68
	3.2	Theory	69
	3.3	Data and methods	72
	3.4	Results	77
	3.5	Conclusion and discussion	89
Chapter	4	Gender inequality in educational performance over the school career: The role of tracking	93
	4.1	Introduction	94
	4.2	Theory	95
	4.3	Data and methods	99

	4.4	Results	107
	4.5	Conclusion and discussion	113
Chapter	5	The differential impact of educational tracking on SES gaps in reading achievement for boys and girls	119
	5.1	Introduction	120
	5.2	Theory	121
	5.3	Data and methods	124
	5.4	Results	132
	5.5	Conclusion and discussion	137
Appendix			141

List of Tables

Table 1.1	Overview of the empirical chapters	32
Table 2.1	Description, availability and sources of contextual-level variables	50
Table 2.2	Descriptive statistics	51
Table 2.3	Multilevel linear regression models of years of education, with a random slope for male and country and cohort fixed effects	56
Table 2.4	Multilevel linear regression models of years of education, controlling for alternative explanations	58
Table 2.5	Multilevel linear regression models of years of education, testing for influential countries	61
Table 3.1	Descriptive statistics, separated by dependent variable	77
Table 3.2	Multilevel linear regression model of years of education	83
Table 4.1	Country selection and their tracking age	103
Table 4.2	Matching of survey waves	104
Table 4.3	Descriptive statistics: reading test scores, math test scores and educational attainment by gender and tracking system, over the educational career	106
Table 4.4	Difference-in-difference estimation of reading and mathematics achievement	110
Table 4.5	Difference-in-difference estimation of reading and mathematics achievement and educational attainment	111
Table 5.1	Matching survey waves PIRLS and PISA	127
Table 5.2	Country selection and their tracking age	128
Table 5.3	Descriptive statistics	130
Table 5.4	Difference-in-difference estimation of reading achievement	132
Table 5.5	Difference-in-difference estimation of reading achievement, including	135
Table B.1	Multilevel linear regression models of years of education	146
Table C.1	Multilevel linear regression model of level of education	148
Table D.1	Multinomial logistic regression model of field of study, ISCED levels 3 and 4; reference category: social sciences, business and law	150
Table D.2	Multinomial logistic regression model of field of study, ISCED levels 5 and 6; reference category: social sciences, business and law	152

Table E.1	Difference-in-difference estimation of reading and mathematics achievement: sensitivity checks	154
Table E.2	Difference-in-difference estimation of reading and mathematics achievement and educational attainment: sensitivity checks	155
Table F.1	Matching of survey waves	156
Table F.2	Difference-in-difference estimation of reading and mathematics achievement	157
Table G.1	Differences-in-differences estimation of early tracking on gender differences in reading achievement	160

List of Figures

Figure 2.1	Variation in the tracking age over time for all countries	53
Figure 2.2	Predicted effect of male on completed years of education for different ages of selection	54
Figure 2.3	Marginal effect of male on years of education by tracking age	60
Figure 3.1	Descriptive statistics of completed years of education separated for men and women	79
Figure 3.2	Index of dissimilarity by gender across fields of study, separated by levels	80
Figure 3.3	Percentage of women in the eight fields of study, separated by levels	81
Figure 3.4	Variation in the tracking age within countries over time (1956-2006)	82
Figure 3.5	Marginal effects of gender(female) on years of education, by age of first selection	84
Figure 3.6	Marginal effects of gender(female) on fields of study (ISCED levels 3-4), by age of first selection	86
Figure 3.7	Marginal effects of gender(female) on fields of study (ISCED levels 5-6), by age of first selection	87
Figure 4.1	Representation of the two differences-in-differences models	101
Figure 4.2	Average female advantage in achievement and attainment over the educational life course separately for early and late tracking countries	107
Figure 4.3	Average female advantage in standard deviations in late tracking systems relative to early tracking systems over the educational life course	108
Figure 4.4	Marginal effect graph of female on reading achievement (left) and mathematics achievement (right) by tracking system and educational stage with 95% CIs	110
Figure 4.5	Marginal effect graph of female on educational achievement and attainment by tracking system and educational stage with 95% CIs	112
Figure 5.1	Descriptive statistics: standardized reading test scores by SES (= parents' social class), gender and tracking system in primary and secondary school	131

Figure 5.2	Descriptive statistics: standardized reading test scores SES (= parents' education), gender and tracking system in primary and secondary school	131
Figure 5.3	Marginal effect graph of SES on reading achievement by tracking system and educational stage with 95% CIs	133
Figure 5.4	Marginal effect graph of SES on reading achievement by gender, tracking system and educational stage with 95% CIs	136
Figure A.1	Descriptive statistics of completed years of education separated for gender per country	142
Figure A.2	Descriptive statistics of all contextual-level variables per country	143
Figure F.1	Marginal effect graph of female on reading achievement (left) and mathematics achievement (right) by tracking system and educational stage with 95% CIs	158
Figure G.1	Marginal effect graph of female on reading achievement by tracking system and educational stage with 95% CIs	161
