Genetic basis of acaricide resistance

Identification and characterization of the risk and mechanisms of resistance to bifenthrin, acequinocyl, and the novel acaricide pyflubumide in Tetranychus urticae

Authors contributions

Chapter 2. Identification and characterization of new mutations in mitochondrial cytochrome b that confer resistance to bifenthrin and acequinocyl in the spider mite *Tetranychus urticae*

Seyedeh Masoumeh Fotoukchiaii, Zoë Tan, Wenxin Xue, Nicky Wybouw, and Thomas Van Leeuwen

SMF, TVL, and NW conceived and designed research. SMF and ZT conducted experiments. SMF, TVL, and NW analyzed data and wrote the manuscript.

Chapter 3. Resistance risk assessment of the novel complex II inhibitor pyflubumide in the polyphagous pest *Tetranychus urticae*

Seyedeh Masoumeh Fotoukchiaii, Catherine Mermans, Nicky Wybouw and Thomas Van Leeuwen

SMF, TVL, and NW conceived and designed research. SMF and CM conducted experiments. SMF, TVL, and NW analyzed data and wrote the manuscript.

Chapter 4. Gene amplification of cytochrome P450 reductase and detoxification by cytochrome P450 CYP392A16 underlie pyflubumide resistance in *Tetranychus urticae*

Seyedeh Masoumeh Fotoukchiaii, Nicky Wybouw, Andre Kurlovs, Dimitra Tsakireli, Pergantis Spyridon, Richard Clark, John Vontas, and Thomas Van Leeuwen

SMF, TVL, and NW conceived and designed research. SMF, DT, NW, and PS conducted experiments. SMF, TVL, NW, AK, DT, and PS analyzed data and wrote the manuscript with the input from RK and JV.

Biography

Seyedeh Masoumeh Fotoukkaiai was born on 19 September 1987, in Ramsar, Iran. She obtained her high school diploma in 2005 and started a Bachelor's of Crop Protection degree at the University of Zanjan, Iran, in the same year. In 2009, she started her Masters studies in Agricultural Entomology at Guilan University, Iran, and graduated in 2011. In 2013, Masoumeh successfully passed the PhD entrance exam of Iran and started a PhD at the Department of Plant Protection of the University of Tehran. In 2015, she came to the Institute for Biodiversity and Ecosystem Dynamics (IBED) of the University of Amsterdam as a guest researcher. In 2016, she started a new PhD program in the lab of Prof. Thomas Van Leeuwen at the IBED.

Fotukiaii SM, Sahragard A. 2012. Functional response of fourth instar Larvae and the female *Serangium montazerii* Fursch (Coleoptera: Coccinellidae) to different densities of *Dialeurodes citri* (Ashmead)(Hemiptera: Aleyrodidae) under laboratory conditions. Journal of the Entomological Research Society. 14(2):1-7.

Acknowledgements

I would like to dedicate this thesis to my mother, who I owe all that I am and ever hope to be to. I started my PhD with all her love, encouragement, and support and I am finishing it with all the nice memories of her that are engraved on my mind. Rest in peace!

My sincere and deepest gratitude to my supervisor Thomas Van Leeuwen. I am grateful for the opportunity to do my PhD in his lab. Thanks for all his invaluable guidance, support, patience, and advice throughout this journey. I feel so lucky for being part of his team. Great thanks also to my co-supervisor Nicky Wybouw for all his valuable help and contributions to my PhD project. It has been a great pleasure having Steph Menken as my promotor. I appreciate him for reviewing my thesis manuscript, preparing the Dutch version of my thesis summary, and all his other supports. I also appreciate the reading committee for taking the time to evaluate my thesis.

I wish to extend thanks to my students Zoë and Myrthe. It was a very nice experience having you in our lab. My great thanks also go to my other colleagues in the lab and greenhouse: Sabina, Nena, Marysia, Ernesto, Peter K., Betsie, Lin, Ludek, and Harold for creating a nice working environment, helping out, and all the productive discussions that we had. Special thanks also to our collaborators from Ghent University, the University of Utah, and Crete University: Andre, Catherine, Wenxin, Dimitra, John, Pergantis, and Richard.

Working at the University of Amsterdam (UvA) has been a unique experience for me. I wish to express my gratitude to the nice and kind staff of the UvA Astrid, Frank, Maria, and Truc for all their support and help. Great appreciation also to the other wonderful people who I met and became friends with on this journey: Melis, Ke, Rik, Marian, Funging, Siging, Frans, Elly, Peter R., and Ineke. My thanks are extended to the IBED football teammates Marian, Paula, Daniella, Louise, and Karen for all fun moments that we experienced together. My IBED time was all nice also with other colleagues Saioa, Elise, Heike, Nina, Michiel, Hans, Tom, Thomas, Taymaz, Arthur, Bart, Camila, Cleide, Daphne, Joséphine, Juan, Livia, Alessandra, Naomi, Natalia, Rashid, Dennis, Rizwan, Mary, Tanya, Monique, Arne, Merijn, Martijn, Saskia, Pascale, and many others who I might have forgotten to mention here.

Last but not least, I am most grateful to my family. To Baba jun and Maman jun for giving me all that I need to build a dream, and for all their love and support also to my

parents-in-law Aghajan and Mamanjan, my brother Mehdi, my sister Mahdieh, my brothers-in-law Younes, Hassan, and Hossein, sisters-in-law Fatemeh, and Hadis, and my lovely nephews and niece Mohammad, Maryam, and Negar, as well as my aunts, uncles, and cousins.

Saving the best for the last, thanks to my wonderful husband who is also my best friend and colleague, for all his love, encouragement, understanding, advice, support, and patience. Ali junam, you have been my best companion in all up and down moments of my life, and words cannot describe my gratitude for having you. I wish you all the best.
