You will be contacted as soon as possible.
Anton Pannekoek, Marxist Astronomer

Photography, Epistemic Virtues, and Political Philosophy in Early Twentieth-Century Astronomy

Academisch Proefschrift

ter verkrijging van de graad van doctor
aan de Universiteit van Amsterdam
op gezag van de Rector Magnificus
prof. dr. ir. K.I.J. Maex
ter overstaan van een door
het College voor Promoties ingestelde commissie,
in het openbaar te verdedigen
op vrijdag 26 maart 2021, te 13.00 uur

door

Chao Kang Tai
gboren te Apeldoorn
Promotiecommissie:

Promotores:
prof. dr. J.A.E.F. van Dongen
prof. dr. R.A.M.J. Wijers

Overige leden:
prof. dr. E.P.J. van den Heuvel	Universiteit van Amsterdam
prof. dr. A. de Koter	Universiteit van Amsterdam
prof. dr. A.J. Kox	Universiteit van Amsterdam
prof. dr. J.J.E. Kursell	Universiteit van Amsterdam
prof. dr. O.W. Nasim	Universität Regensburg
prof. dr. R.W. Smith	University of Alberta
prof. dr. L.T.G. Theunissen	Universiteit Utrecht

Faculteit der Natuurwetenschappen, Wiskunde en Informatica

This research has been funded by the Institute of Physics and the Anton Pannekoek Institute for Astronomy, both University of Amsterdam; the Descartes Center for the History and the Philosophy of Sciences, Utrecht University; and Stichting Pieter Zeeman Fonds. Additional travel support for archival research was provided the American Institute of Physics, Center for History of Physics.
Contents

Contents iii
List of Figures iv
Introduction 1

1 Milky Way Research 27
  1.1 The Milky Way as Optical Phenomenon 31
  1.2 How to Represent the Milky Way 40
  1.3 Photography for Measurement 50
  1.4 Conclusions 62

2 Statistical Astronomy 65
  2.1 Statistical Cosmology 69
  2.2 Particularities in Statistical Distribution 74
  2.3 Star Densities in the Local System 90
  2.4 Historical Materialism 106
  2.5 Conclusions 110

3 Astrophysics of Stellar Atmospheres 113
  3.1 Spectrum, Luminosity, and Colour 118
  3.2 Growth and Relevance of Astronomy 127
  3.3 Ionization Theory 137
  3.4 Acquiring Photographic Plates 144
  3.5 Model Stellar Atmospheres 151
  3.6 Curve of Growth and Equivalent Widths 166
  3.7 Conclusions 175
List of Figures

I.1 Anton Pannekoek, ca. 1916 ........................................ vi
1.1 Pannekoek’s observational journal ......................... 32
1.2 Naturalistic drawing of the Milky Way ..................... 44
1.3 Isophotic diagram of the Milky Way ....................... 46
1.4 Isophotic diagram of the mean subjective image ........ 48
1.5 Photographic photometry of the Scutum cloud ........... 54
1.6 Extrafocal photographic plate ............................... 56
1.7 Working sheet for photographic photometry .............. 58
1.8 Isophotic diagram based on extrafocal photography .... 59
1.9 Naturalistic drawing based on extrafocal photography ... 61
2.1 Herschel’s 1785 model of the stellar system ............. 70
2.2 Kapteyn’s model of the stellar system .................... 72
