2	Breedvelt, J. J. F., Kandola, A., Kousoulis, A. A., Brouwer, M. E., Karyotaki, E., Bockting, C. L. H., & Cuijpers, P. (2018). What are the effects of preventative interventions on major depressive disorder (MDD) in young adults? A systematic review and meta-analysis of randomized controlled trials. <i>Journal of Affective Disorders, 239</i> . 18–29.	JB, CB and PC designed the study. JB conducted the searches, extracted the studies and conducted the analyses. AK carried out the extraction of the studies, prepared the tables and reviewed drafts of the manuscript. EK and MB reviewed and supported with the meta-analysis. JB wrote the manuscript with support from EK, MB, CB. and PC. PC reviewed and oversaw the review from the instigation until final preparation of the manuscript. CB further provided critical comment on the interpretation of the manuscript. Both PC and CB supervised the project. <i>Funding: Mental Health Foundation</i>
3	Breedvelt, J.J.F., Tiemeier, H., Sharples, E., Galea, S., Niedzwiedz, C.L., Elliott, I., Bockting, C. L. H. (2020). Can we prevent depression and anxiety in adolescents and young adults by increasing neighbourhood social cohesion? <i>Under review.</i>	JB and CB, designed the study. HT, ES further conceptualised the paper and the main themes. JB wrote the first draft and was project lead. HT provided critical comment on early and final drafts, reviewed the interpretation of studies and the development of the theoretical framework, and provided evidence box 3 and methodological input on measurement and evaluation of neighbourhood social cohesion. ES co-drafted policy and intervention sections of the manuscript, developed figures 1 and 2 with supervision from JB and analysed the workshops with young people, and oversaw the rapid review extractions together with JB. SG provided critical comment on drafts as well as initial guidance on direction and scope of the manuscript. IE provided materials on human rights and equality and IE and guided the policy recommendations of the report. CN IE and CB provided comment on the protocol and critical comment throughout the drafting process. CN, IE, HT, CB contributed comments throughout the writing process. CB provided further critical comment and CB and JB finalised the discussion. All authors critically reviewed the manuscript before submission. <i>Funding: Wellcome Trust</i>

4	Breedvelt, J. J. F., Zamperoni, V., South, E., Uphoff, E. P., Gilbody, S., Bockting, C. L. H., Churchill, R., & Kousoulis, A. A. (2020). A systematic review of mental health measurement scales for evaluating the effects of mental health prevention interventions. <i>European Journal of Public Health, 30</i> (3), 539–545.	JB, AK, VZ conceptualised the paper with comment from CB, SG, RC, EU. VZ and JB drafted the protocol. VZ conducted the screening with supervision from JB. ES, VZ conducted the extractions with supervision from JB and EU. RC, CB and SG provided comment and critically reviewed the first drafts. VZ and JB drafted the first manuscript and revised manuscript critically after comment. JB and VZ are joint first authors. <i>Funding: Mental Health Foundation</i>
5	Breedvelt, J. J. F., Brouwer, M. E., Harrer, M., Semkowska, M., Ebert, D. D., Cuijpers, P., & Bockting, C. L. H. (2020). Psychological interventions as an alternative and add-on to antidepressant medication to prevent depressive relapse: systematic review and meta-analysis. <i>British Journal of Psychiatry, 0</i> (1–8).	JB, MB and CB designed the study. JB co-formulated the research question, co-designed the study, led on extractions, data analysis and drafting the article prior to submission. MB co-formulated the research question, co-designed the study, co-conducted study selections and extractions, provided analysis advice and critically reviewed the article prior to submission. MH supported with the design and extractions, analysis of the manuscript and preparing the risk of bias tables and critically reviewed the article prior to submission. MS supported with the design, and analysis of the study as well as critically reviewed the article prior to submission. DE supported with the design of the study and critically reviewed the article prior to submission. PC supported with the design and analysis of the study and critically reviewed the article prior to submission. CB co-formulated the research question, co-designed the study and extractions, provided critical comment on the analysis (including guiding comment) and critically reviewed the article drafts prior to submission. <i>Funding: Amsterdam Public Health – Mental Health Alliance Fund</i>

6	Breedvelt, J. J. F., Warren, F. C., Segal, Z. V., Kuyken, W., & Bockting, C. L. H. (2020). Can I Stop My Antidepressant? Efficacy of Sequential Psychological Interventions on Depressive Relapse: An Individual Participant Data Meta-Analysis. <i>Accepted, JAMA Psychiatry.</i>	CB with JB conceptualised the study. FW delivered input on the statistical analysis plan and reviewed the analyses conducted by JB. SZ and WK provided data access and critical comment on the protocol and drafts of the manuscripts. JB developed the first draft, FW, SG, WK and CB provided further comment and critical review of the drafts thereafter. CB delivered further critical comment on analyses including variable selection and analysis strategy. <i>Funding: Amsterdam Public Health – Mental Health Alliance Fund</i>
7	Breedvelt, J. J. F., Warren, F. C. W., Brouwer, M. E. B., Karyotaki, E., Kuyken, W., Cuijpers, P., Van Oppen, P. van, Gilbody, S., & Bockting, C. L. H. (2020). Individual participant data (IPD) meta-analysis of psychological relapse prevention interventions versus control for patients in remission from depression: A protocol. <i>BMJ Open, 10(2)</i> , 1–8.	JB, MB, CB and SG conceptualised the study. FW and WK delivered input on study conceptualisation and FW specifically, critically revised and reviewed the protocol and statistical analysis plan. EK and PC critically reviewed the protocol for missing intellectual content and accuracy. PvO evaluated the study concept and outline, critically reviewed the protocol, all study materials and advised on the consortium. SG critically reviewed the protocol for missing intellectual content and accuracy and provided input on methodological and data access queries. <i>Funding: Amsterdam Public Health – Mental Health Alliance Fund</i>
