The research reported in this thesis was carried out in the Molecular Microbial Physiology Group of the Swammerdam Institute for Life Sciences, Faculty of Science, University of Amsterdam. Wenyang Wu was supported by a PhD scholarship from China Scholarship Council.

Cover: The pictures on the cover show a stable *Synechocystis* cell factory for producing mannitol. The mannitol production from cell factory is stabilized and improved by salt pressures. The cover has been designed by Xia Huang and Wenyang Wu.

Layout: The thesis layout has been designed by Wenyang Wu.

Photoautotrophic overproduction of mannitol in *Synechocystis*
sp. PCC6803 using osmotic pressure as a driving force

ACADEMISCH PROEFSCHRIFT

ter verkrijging van de graad van doctor
aan de Universiteit van Amsterdam
op gezag van de Rector Magnificus
prof. dr. ir. K.I.J. Maex

ten overstaan van een door het College voor Promoties ingestelde commissie,
in het openbaar te verdedigen in de Aula der Universiteit
op woensdag 30 juni 2021, te 16.30 uur

door

Wenyang Wu

geboren te Shaanxi

Promotiecommissie

<i>Promotores:</i>	dr. F. Branco dos Santos	Universiteit van Amsterdam
	prof. dr. L.W. Hamoen	Universiteit van Amsterdam
<i>Overige leden:</i>	prof. dr. X. Li	Lanzhou University
	dr. P. Tamagnini	University of Porto
	prof. dr. K.J. Hellingwerf	Universiteit van Amsterdam
	prof. dr. G. Muijzer	Universiteit van Amsterdam
	dr. T. den Blaauwen	Universiteit van Amsterdam
	dr. A.D. van der Woude	Photanol BV

Faculteit der Natuurwetenschappen, Wiskunde en Informatica

Table of Contents

General Introduction	1
Using osmotic stress to stabilize mannitol production in <i>Synechocystis</i> sp. PCC6803	23
Enhancement of mannitol production by fine-tuned expression of mannitol-1-phosphate-5-dehydrogenase in <i>Synechocystis</i> sp. PCC6803	51
Improvement in mannitol production of engineered <i>Synechocystis</i> sp. PCC6803 via adaptive laboratory evolution	73
Exploring a new pathway of mannitol production by expressing mannitol dehydrogenase and sucrose synthase in <i>Synechocystis</i> sp. PCC6803	109
General Discussion	131
Summary	145
Samenvatting	149
Acknowledgement	153
List of Publications	157
