APPENDIX CHAPTER 4

Interview protocol

- A) Welcome
 - a. Could you tell me more about yourself? Grade, age, hobbies?
 - b. Which subjects do you enjoy? Why?
 - c. What would you like to become/study later?

- B) Students' goals
 - a. Can you tell me when you first started to attend tutoring?
 - b. Do you remember how it went? Who suggested it?
 - c. Why do you think your parents signed you up for this tutoring?
 - d. What made you feel that you need to attend tutoring?

- C) Experienced benefits
 - a. What do you learn here?
 - i. What do you know now that you did not know before and now know because of this tutoring? Could you provide an example?
 - ii. What can you do now that you could not do before and can do now because of this tutoring? Could you provide an example?
 - iii. How do you feel after going to tutoring?
 - b. What do you think this tutoring offers you? Is it useful to you? If so, how?

- D) Context
 - a. School:
 - i. What do you do/learn here that do you do not do/learn at school?
 - ii. Follow-up school-related questions
 - b. Home
 - i. What do you do/learn here that do you do not do/learn at home?
 - ii. Follow-up home-related questions
 - c. Tutoring
 - i. Take me with you as you enter this building. What do you do here?

- ii. Follow-up tutoring-related questions
- E) Wrap-up
- a. These are some notes I made during the interview.
 - i. Which note do you consider to be most important to you? Why?
 - ii. If you could pick another note, which would you pick and why?
 - b. Thank student and ensure anonymity.

APPENDIX CHAPTER 4

Coding scheme

Code	Subcode	Frequency
A. Students' goals	A1. Remediation	***
	A2. Wish to study	***
	A3. Wish to boost performance	***
	A4. Follow peers	*
	A5. (Attitudinal) coaching	***
B. Experienced benefits	B1. Planning	***
	B2. Push in the right direction	*
	B3. Exam preparation	***
	B4. Relief	***
	B5. Satisfaction	*
	B6. Classroom participation	***
C. Home	C1. Distractions: noise	***
	C2. Distractions: siblings	*
D. School	D1. (Unclear) teacher instruction	***
	D2. Relationships with tutors and teachers	**
	D3. Distractions: peers	*
	D4. Support	*

Note. Frequency = amount of times coded, * = less than 5, ** = between 5 and 10, *** = more than 10).

APPENDIX CHAPTER 5**Interview guide**

1. Introduction
 - a. [Introduction of the research project.]
 - b. [Informed consent for audio recording.]
 - c. [Ensuring the interview data will be treated anonymously.]
 - d. [Mentioning the focus group will take 75 minutes.]
 - e. [Asking if there are any questions before we start.]
2. A quick round of introductions: Briefly describe your role (teacher, tutor, parent) and your relationship with (supplementary) education.
3. Opening question
 - a. Definition of supplementary education: non-school intentional, organized forms of learning and development. In this research, we look at supplementary education with a supporting function (e.g., tutoring, homework support), in which supplementary education is primarily aimed at supporting learning objectives that are pursued within the regular education program.
 - b. What associations does the term evoke in you?
 - i. First, write down your answer on the sheet in front of you.
 - ii. [Ask someone to read out their answer and indicate there are no wrong answers.]
4. Educational responsibilities
 - a. In your own words, what are the most important educational responsibilities of a school in regular secondary education? [If respondents cannot think of any educational responsibilities, propose broad topics:]
 - i. Cognitive development (e.g., acquiring knowledge)
 - ii. Learning study skills (e.g., planning)
 - iii. Preparing for the labor market (e.g., career orientation)
 - iv. Social competences (e.g., socio-emotional development)
 - v. Other (e.g., support of specific learning needs such as autism or fear of failure)
 - b. As a group, we now have a list of school educational responsibilities. Do you think any educational responsibilities are missing from this list?

- c. In your own words, what are the most important educational responsibilities of a provider of supplementary education? And of a parent in the field of education?
5. Distribution of educational responsibilities
 - a. How should the distribution of educational responsibilities be (global)?
 - b. How do you find it now? Is the division of educational responsibilities between the school, parents, and supplementary education currently clear? If not, why not? [Ask for examples based on daily practice.]
 - c. You will see a triangle drawn on this A1 field. We will go through the educational responsibilities one by one, talking to each other about where we will position the specific task at any point within the triangle.
 - d. [Bringing participants forward, shifting educational responsibilities and explaining their choice. Invite other participants to respond to the positions of educational responsibilities.]
 - e. [Stimulate discussion]: does the position of a task depend on the individual student? (How) do you jointly provide optimal support?
 - f. Is there any form of cooperation between:
 - i. parents and supplementary education:
 1. If so, what does it look like in concrete terms?
 2. If so, what added value do you see?
 3. If not, why not?
 4. What is going well? What could be improved?
 - ii. school and supplementary education?
 1. If so, what does it look like in concrete terms?
 2. If so, what added value do you see?
 3. If not, why not?
 4. What is going well? What could be improved?
6. Roundup: Thank you for participating in this discussion. For reliability, I will produce a report of this conversation and e-mail it to everyone currently present. In doing so, you can indicate whether the report is complete and correct and thus accurately represents what has been discussed.

APPENDIX CHAPTER 5

Coding scheme^{vii}

Code	Subcode
A. Self-assigned role	A1. Parent A2. Tutor A3. School administration A4. Teacher A5. Other: open code
B. ER shadow education in relation to schools	B1. ER school B2. ER unattended by school taken by the shadow B3. No relation to school B4. Other: open code
C. ER shadow education in relation to families	C1. ER families C2. ER unattended by families taken by the shadow C3. No relation to families C4. Other: open code
D. Experienced tensions during the negotiation of ER	D1. The tension between ideal practice D2. The tension between parents and teachers D3. Working parents D4. Busy classrooms D5. Other: open code
E. Dealing with experienced tensions	E1. Coordination communication E2. Coordination information exchange E3. Other: open code
F. The added value of being a triad	F1. Following up on students F2. Inviting tutor to parent-teacher meetings F3. Other: open code

^{vii} ER=Educational responsibilities. Label [ideal] was added to statements about the *should* and [actual] to those about the *is*. Specific responsibilities were coded as follows: ER-school[ideal][qualification, transmission of knowledge].
