Stratification in the risk and consequences of  
union dissolution

ACADEMISCH PROEFSCHRIFT

ter verkrijging van de graad van doctor  
aan de Universiteit van Amsterdam  
op gezag van de Rector Magnificus  
prof. dr. ir. K.I.J. Maex

ten overstaan van een door het College voor Promoties ingestelde commissie,  
in het openbaar te verdedigen in de Agnietenkapel  
op woensdag 20 april 2022, te 10.00 uur

door  
Bram Hogendoorn  
geboren te Groningen

**PROMOTIECOMMISSIE**

Promotor:	dr. T. Bol	Universiteit van Amsterdam
Copromotores:	prof. dr. M. Kalmijn	Universiteit van Amsterdam
	prof. dr. T. Leopold	Universität zu Köln
Overige leden:	prof. dr. I.A. van Gaalen	Universiteit van Amsterdam
	prof. dr. H.G. van de Werfhorst	Universiteit van Amsterdam
	prof. dr. S. Musterd	Universiteit van Amsterdam
	prof. dr. A. Poortman	Universiteit Utrecht
	prof. dr. J.M. Raymo	Princeton University

Faculteit der Maatschappij- en Gedragwetenschappen

## **CONTENTS**

<b>1 Synthesis</b>	<b>13</b>
1.1 Introduction	14
1.2 Diverging destinies	17
1.3 Risk and consequences	18
1.4 Social context	21
1.5 Research approach	23
1.6 Empirical studies	26
1.7 Lessons learned	30
1.8 Outlook	33
<b>2 Linking union dissolution to inequality</b>	<b>37</b>
2.1 Introduction	39
2.2 Theoretical background	40
2.3 The Dutch context	43
2.4 Data and method	44
2.5 Results	49
2.6 Conclusion	59
<b>3 Stratification in the risk of dissolution</b>	<b>63</b>
3.1 Introduction	65
3.2 Theory	66
3.3 Method	69
3.4 Results	75
3.5 Discussion	81
<b>4 Stratification in the consequences of dissolution</b>	<b>85</b>
4.1 Introduction	87
4.2 Theoretical expectations	88
4.3 The Dutch context	90
4.4 Method	91
4.5 Results	98
4.6 Discussion	103
<b>5 Coping with union dissolution</b>	<b>109</b>
5.1 Introduction	111

5.2 Background	113
5.3 Method	116
5.4 Results	120
5.5 Discussion	129
<b>A Appendix</b>	<b>135</b>
A.1 Appendix chapter 2	136
A.2 Appendix chapter 3	143
A.3 Appendix chapter 4	175
A.4 Appendix chapter 5	181
A.5 Stata package nlmed	190
<b>Bibliography</b>	<b>191</b>
<b>Publication list</b>	<b>207</b>
<b>Summary</b>	<b>209</b>
<b>Samenvatting</b>	<b>213</b>
<b>Acknowledgments</b>	<b>219</b>
<b>About the author</b>	<b>221</b>
<b>ICS dissertation series</b>	<b>223</b>

## **TABLES**

Table 1.1 Longitudinal studies of stratification in the consequences of union dissolution for women's economic well-being	19
Table 1.2 Overview of the empirical chapters	30
Table 2.1 Descriptive statistics at entry into marriage by sex and education level	50
Table 2.2 Kitagawa decomposition of the overall difference in poverty rates	55
Table 3.1 Descriptive statistics of the analytic sample	70
Table 3.2 Life strains across five domains	72
Table 3.3 Event-history model of union dissolution	76
Table 3.4 Effects of educational attainment on ego's and partner's life strains	77
Table 3.5 Effects of ego's and partner's life strains on union dissolution	79
Table 3.6 Mediation of educational gradient in union dissolution by ego's and partner's life strains	79
Table 4.1 Theoretical expectations of changes in income components	90
Table 4.2 Descriptive statistics two years before union dissolution	94
Table 5.1 Overview of the data	119
Table 5.2 Characteristics of single mothers across Europe	122
Table 5.3 Multigenerational household dissolution rates by country	127
Table A.1 Risk and consequences estimates underlying the Kitagawa decomposition of the overall poverty difference	136
Table A.2 Conversion of education qualifications into categories and completed years	143
Table A.3 Original items used to construct the life strain variables	144
Table A.4 Means and case numbers before and after imputation	146
Table A.5 Complete output of generalized structural equation model for ego	147
Table A.6 Complete output of generalized structural equation model for ego and partner	149
Table A.7 Event-history models of union dissolution, fully controlling for confounders	152
Table A.8 Effects of educational attainment on ego's and partner's life strains, fully controlling for confounders	153
Table A.9 Effects of ego's and partner's life strains on union dissolution, fully controlling for confounders	154
Table A.10 Mediation of educational gradient in union dissolution by ego's and partner's life strains, fully controlling for confounders	155
Table A.11 Effects of educational attainment on ego's and partner's life strains, listwise deletion	156
Table A.12 Effects of ego's and partner's life strains on union dissolution, listwise deletion	157
Table A.13 Mediation of educational gradient in union dissolution by ego's and partner's life strains, listwise deletion	158

Table A.14 Event-history models of union dissolution, heterosexual men	159
Table A.15 Effects of educational attainment on his and her life strains, heterosexual men	160
Table A.16 Effects of his and her life strains on union dissolution, heterosexual men	161
Table A.17 Mediation of educational gradient in union dissolution by his and her life strains, heterosexual men	162
Table A.18 Event-history model of union dissolution, heterosexual women	163
Table A.19 Effects of educational attainment on his and her life strains, heterosexual women	164
Table A.20 Effects of his and her life strains on union dissolution, heterosexual women	165
Table A.21 Mediation of educational gradient in union dissolution by his and her life strains, heterosexual women	166
Table A.22 Event-history model of union dissolution, couples with children	167
Table A.23 Effects of educational attainment on ego's and partner's life strains, couples with children	168
Table A.24 Effects of ego's and partner's life strains on union dissolution, couples with children	169
Table A.25 Effects of ego's and partner's life strains on union dissolution, couples with children	170
Table A.26 Event-history model of union dissolution, couples without children	171
Table A.27 Effects of educational attainment on ego's and partner's life strains, couples without children	172
Table A.28 Effects of ego's and partner's life strains on union dissolution, couples without children	173
Table A.29 Mediation of educational gradient in union dissolution by ego's and partner's life strains, couples without children	174
Table A.30 Instrumental-variable effects of ego's and partner's life strains on union dissolution	174
Table A.31 Balance on matching variables between treatment and control group, two years before union dissolution	175
Table A.32 Fixed-effects regressions of changes in income components after union dissolution	176
Table A.33 Fixed-effects regressions of change in household disposable income after union dissolution, using different model specifications	177
Table A.34 Fixed-effects regressions of changes in income components after union dissolution, using the OECD-modified equivalence scale	178
Table A.35 Fixed-effects regressions of changes in income components after union dissolution, using the square root equivalence scale	179

Table A.36 Fixed-effects regressions of changes in income components after union dissolution, by education level	180
Table A.37 Sampling designs	181
Table A.38 Identification of family relationships	182
Table A.39 Datasets suitable for analysis	184
Table A.40 Values on country-level indicators	185
Table A.41 Sample sizes of cross-sectional data (unweighted)	186
Table A.42 Sample sizes of panel data (unweighted)	187
Table A.43 Sample sizes of time-series data (unweighted)	188

## FIGURES

Figure 1.1 Legal divorce in the Netherlands, 1950-2020	14
Figure 1.2 Conceptual schema of union dissolution and inequality	24
Figure 2.1 Observed poverty trajectories	51
Figure 2.2 Divorce hazards by marriage duration	52
Figure 2.3 Poverty rates by divorce duration	53
Figure 2.4 Simulated poverty trajectories under counterfactual risk and consequences	57
Figure 3.1 Conceptual model of the educational gradient in union dissolution	68
Figure 3.2 Union survival curves by education level	76
Figure 4.1 Observed (left) and estimated (right) changes in household disposable income after union dissolution	99
Figure 4.2 Financial gains of changes in household composition after union dissolution	100
Figure 4.3 Fixed-effects decomposition of the dissolution penalty	102
Figure 5.1 Prevalence of single motherhood in Europe of the 21 <sup>st</sup> century	121
Figure 5.2 Prevalence of multigenerational coresidence among mothers in Europe	124
Figure 5.3 Country-level correlates of multigenerational coresidence	126
Figure 5.4 Changes in multigenerational coresidence over time	129
Figure A.1 Poverty rates by predicted separation duration	137
Figure A.2 Simulated poverty trajectories under counterfactual risk and consequences in the coresidential population	138
Figure A.3 Simulated poverty trajectories under counterfactual risk and consequences from the viewpoint of the lower educated	139
Figure A.4 Poverty rates by divorce duration after correcting for child support	140
Figure A.5 Risk of divorce along the income distribution	140
Figure A.6 Poverty rates along the income distribution	141
Figure A.7 Poverty rates by divorce duration, holding constant predivorce income	142
Figure A.8 Union survival curves by education level, heterosexual men	159
Figure A.9 Union survival curves by education level, heterosexual women	163
Figure A.10 Union survival curves by education level, couples with children	167
Figure A.11 Union survival curves by education level, couples without children	171
