CURRICULUM VITAE

Curriculum vitae

Joana Abreu was born in Braga, Portugal, on the 18th May 1980. After graduating from highschool in 1998 at the Escola Secundária de Carlos Amarante in Braga she started her university studies. In 2002 she completed the Applied Biology degree at the School of Sciences from Minho University in Braga. During the last year of her studies she performed a traineeship at the University of Amsterdam where she studied the role of the PHB complex of proteins under oxidative stress conditions in the development of *C. elegans*, under supervision of Dr. H. van der Spek. She initiated her PhD project in 2002 at the department of Clinical Immunology and Rheumatology, at the Academic Medical Center, University of Amsterdam, under supervision of Dr. K.A. Reedquist and Prof. Dr. P.P. Tak. Since 2008 she has joined the group of Prof. Dr. Bart Roep at the department of Immunohematology and Blood Transfusion, Division of Diabetes, at the Leiden University Medical Center as a postdoctoral fellow to study T cell autoreactivity in type 1 diabetes.
