About the author

Anne Timmermans was born on September 12, 1976 in Nijmegen, the Netherlands. In 1994 she graduated from secondary school at the Stedelijk Gymnasium Nijmegen. She attended medical school at the University of Maastricht from 1994-2001. During her medical studies, for a period of six months, she was involved in a research project “The role of VEGF and sFLT-1 in predicting pre-eclampsia” at the Department of Obstetrics and Gynaecology of the New York University School of Medicine, United States of America (Dr. E.F. Funai), with Dr. J.P.M. Of-fermans (Department of Obstetrics and Gynaecology of the Maastricht University Hospital) as her Dutch Supervisor. After obtaining her medical degree in May 2001 she worked as a resident at the Department of Obstetrics and Gynaecology of the St. Antonius Hospital in Nieuwegein for a period of one year. In 2002 she started her training in Obstetrics and Gynaecology at the same St. Antonius Hospital Nieuwegein (Dr. H.S. The). During this period she also started the first study on postmenopausal bleeding under supervision of Drs. S. Veersema (St. Antonius Hospital Nieuwegein), and continued with the studies as described in this thesis (promoters: Prof. Dr. B.W.J. Mol [Academic Medical Centre University of Amsterdam], Dr. F.W. Jansen [Lei-den University Medical Centre] and Dr. B.C. Opmeer [Academic Medical Centre University of Amsterdam]). She received the Raoul Palmer Award for her study on “Patients’ preferences in the evaluation of postmenopausal bleeding” at the Annual congress of the European Society of Gynaecological Endoscopy in 2005, Athens, Greece. She continued her official residency in Obstetrics and Gynaecology at the University Medical Centre Utrecht (Prof. Dr. A.P.M. Heintz and Prof. Dr. G.H.A. Visser) and will finish her residency training on February 12, 2009, at the Tweesteden Ziekenhuis Tilburg (Dr. H.J.H.M. van Dessel).
