(Current Biology 30, R1014–R1018; September 21, 2020)

As a result of an author oversight in the originally published version of this article, a number of errors were introduced in the author list and affiliations. First, the middle initials were omitted from the names of several authors. Second, the surname of Dr. van Dam was mistakenly written as “Dam.” Third, the first name of author Bernhard Englitz was misspelled as “Bernard” and the surname of author B.J.A. Pollux was misspelled as “Pullox.” Finally, Dr. Keijer’s first name was abbreviated rather than written in full. These errors, as well as various errors in the author affiliations, have now been corrected online.
