Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

Contents

Preface	9
Chapter 1. General Introduction	11
Chapter 2. Opposite effects of early maternal deprivation on neurogenesis in male versus female rats.	55
	<i>PLoS ONE. 2009; 4(1): e3675</i>
Chapter 3. Early maternal deprivation affects dentate gyrus structure and emotional learning in adult females	81
	<i>Submitted to Psychopharmacology</i>
Chapter 4. Severe early life stress hampers spatial learning and neurogenesis, but improves hippocampal synaptic plasticity and emotional learning under high-stress conditions in adulthood.	101
	<i>Journal of Neuroscience, in press</i>
Chapter 5. Brief treatment with the glucocorticoid receptor antagonist mifepristone normalizes the reduction in neurogenesis after chronic stress.	127
	<i>Eur J. Neurosci. 2007; 26(12):3395-401</i>
Chapter 6. General discussion	141
Addendum. Spatial learning in the Morris water maze reduces newborn cell survival in the rostral hippocampus but does not affect neurogenesis; a discussion of the current state of confusion.	173
	<i>In preparation, 2010</i>
List of abbreviations	189
Nederlandse samenvatting	191
Dankwoord	197
Curriculum vitae	200
List of publications	201
