Contents

1 Introduction

2 Long-term health effects on the next generation of Ramadan fasting during pregnancy

2.1 Introduction

2.2 Background

2.2.1 Ramadan

2.2.2 Indonesia

2.3 Medical theory and evidence of the effects of Ramadan fasting during pregnancy on offspring’s health

2.4 The data

2.5 Results

2.5.1 General health measure

2.5.1.1 General health effects on Indonesian Muslims

2.5.1.2 Non-Muslims

2.5.1.3 Selective timing of pregnancies

2.5.1.4 Subjective feelings of general health and sickness

2.5.2 Sex ratio

2.5.3 Generally non-severe health problems

2.5.4 Subjective indicators of coronary heart disease and diabetes among the elderly

2.5.5 Hypertension and anemia

2.5.6 Effects on weight and body size

2.5.7 Estimates on health of children by their parents

2.6 Discussion

Appendix 2.A

Appendix 2.B

Appendix 2.C

3 Same work, lower grade? Student ethnicity and teachers’ subjective assessments

3.1 Introduction

3.2 Literature review

3.3. The experiment and context

3.3.1. The essays

3.3.2. The sample
4 The effect of peer socioeconomic status on student achievement: A meta-analysis

4.1 Introduction

4.2 Selection of studies

4.3 Sources of variation between studies

4.3.1 Measurement of the compositional variable

4.3.2 Sample characteristics

4.3.3 Model specification

4.4 Estimation strategy

4.4.1 Estimation of basic meta-regression models

4.4.2 Study fixed effects models

4.5 Results

4.5.1 Estimates from the basic meta-regression model

4.5.2 Estimates from study fixed effects meta-regressions

4.6 Conclusion

References

Appendix 4

5 Peer ethnicity and achievement: A meta-analysis into the compositional effect

5.1 Introduction

5.2 Ethnic minority share in schools: effects and similarities

5.3 Differences between ethnic minority groups

5.4 Causes of the compositional effect

5.4.1 Direct peer interaction

5.4.2 Teacher practice

5.4.3 School quality

5.4.4 Artifacts

5.4.5 Differential effects

5.5 Method

5.5.1 Criteria for inclusion

5.5.2 Identification of studies

5.5.3 Coding procedure

5.5.5 Study fixed effects analyses

5.5.6 Moderators

5.6 Results
