Neural coding of attention and attentional set shifting in the rat medial prefrontal cortex

Lee, E.

Citation for published version (APA):
LIST OF PUBLICATIONS

Papers

Eunjeong Lee, Henrique O. Cabral, Cyriel M. A. Pennartz The rat medial prefrontal cortex in control of attention: changes in firing patterns induced by crossmodal distraction, (Submitted for publication)

Eunjeong Lee, Cyriel M.A. Pennartz When previously irrelevant information becomes relevant: single-unit correlates of attentional set shifting in the rat medial prefrontal cortex, (In preparation)

Eunjeong Lee, Francesco P. Bataglia, Cyriel M.A. Pennartz When previously irrelevant information becomes relevant: temporal rearrangement of firing patterns in the rat medial prefrontal cortex during attentional set shifting, (In preparation)
