Acknowledgments ix

1 Motivation and Outline 1
1.1 Introduction ........................................ 1
1.2 Motivation .......................................... 3
1.3 Methodology ....................................... 5
1.4 Outline ............................................ 9

2 The Economics of Incomplete Cartels 11
2.1 Introduction ........................................ 11
2.2 Incomplete Cartels in Practice .................. 14
2.3 Foundations of Cartel Theory ..................... 19
  2.3.1 The Incentive Constraint ................... 21
  2.3.2 The Participation Constraint .............. 22
  2.3.3 Why are Cartels Bad? ....................... 23
2.4 On the Profitability of Incomplete Cartels ..... 25
  2.4.1 Collusive price leadership ................ 27
  2.4.2 Differentiated goods ....................... 29
  2.4.3 Quantity competition ....................... 30
  2.4.4 Comparison .................................. 33
2.5 On the Sustainability of Incomplete Cartels ... 33
  2.5.1 Collusive price leadership ............... 34
  2.5.2 Differentiated goods ....................... 34
2.5.3 Quantity competition ......................................... 35
2.5.4 Comparison ................................................... 36
2.6 The Participation Puzzle ........................................ 37
  2.6.1 Collusive price leadership ................................. 38
  2.6.2 Differentiated goods ....................................... 39
  2.6.3 Quantity competition ...................................... 40
  2.6.4 Comparison .................................................. 42
2.7 Coalition Formation with Positive Externalities ............... 42
  2.7.1 Simultaneous cartel formation ............................ 43
  2.7.2 Sequential cartel formation ............................... 45
2.8 Incomplete Cartels and Firm Heterogeneity ..................... 47
2.9 Incomplete Bidding Rings ..................................... 49
2.10 Discussion ..................................................... 53

3 A Theory of Incomplete Cartels with Heterogeneous Firms 55
  3.1 Introduction ................................................... 55
  3.2 A Model of Collusion with Asymmetric Capacity Constraints 58
    3.2.1 Static Nash Equilibrium ................................ 59
    3.2.2 Infinitely Repeated Game ................................ 61
  3.3 Optimal Cartel Size .......................................... 64
    3.3.1 Costless Collusion ...................................... 65
    3.3.2 Costly Collusion ........................................ 67
  3.4 Incentives to Collude ........................................ 70
  3.5 The Most Profitable Cartel ................................... 75
  3.6 Incomplete Cartels and Mergers .............................. 77
    3.6.1 Merger Incentives ...................................... 78
    3.6.2 Coordinated Effects of Mergers ......................... 80
  3.7 Concluding Remarks .......................................... 89

4 Cartel Detection and Antitrust Law Enforcement 93
  4.1 Introduction ................................................... 93
  4.2 Goal and Scope of Cartel Detection ......................... 95
    4.2.1 Why do we need Cartel Detection? ....................... 96
    4.2.2 Why do we need Economics to Detect Cartels? .......... 97
  4.3 Economic Methods of Cartel Detection ....................... 99
    4.3.1 Market Structure ....................................... 100
    4.3.2 Cartel Conduct ......................................... 105
    4.3.3 Market Performance .................................... 110
  4.4 Potential Pitfalls in Cartel Detection ...................... 111
    4.4.1 No Result, is a Result ................................ 112
    4.4.2 Descriptive Flaws, Empirical Limitations and Theoretical Complications ........................................... 112
    4.4.3 On the Problem of Defining a Workable Benchmark .... 114
  4.5 Detecting Incomplete Cartels ............................... 114
    4.5.1 A Variance Screen for Collusion: an Example (1) .... 115
  4.6 The Need for Industry Specific Detection Tests ............ 118
4.6.1 A Variance Screen for Collusion: an Example (2) 120
4.7 Discussion 121

5 Tracing the Base: A Topographic Test for Collusive Basing-Point Pricing 123
5.1 Introduction 123
5.2 Basing-Point Pricing 126
5.3 A Model of Basing-Point Pricing 131
  5.3.1 Competitive Basing-Point Pricing 134
  5.3.2 Collusive Basing-Point Pricing 135
5.4 Detecting Collusive Basing-Point Pricing 137
  5.4.1 Variance Screens 138
  5.4.2 Bid-distance Correlation 139
5.5 Tracing the Base 141
  5.5.1 Base Recovery 142
5.6 A Likelihood Measure of Collusion 144
5.7 Concluding Remarks 149

6 Summary and Conclusions 153
6.1 Introduction 153
6.2 Main Findings 153
6.3 Implications for Antitrust Policy 156
6.4 Future Research 158
  6.4.1 Cartel Formation with Heterogeneous Firms 158
  6.4.2 Disentangling Overt Collusion and Tacit Collusion 159

A BaseLocator® 163
  A.1 Steps to Trace the Base 163
  A.2 Kernel of the Software 165
