  2.1 Introduction 11
  2.2 Incomplete Cartels in Practice 14
  2.3 Foundations of Cartel Theory 19
    2.3.1 The Incentive Constraint 21
    2.3.2 The Participation Constraint 22
    2.3.3 Why are Cartels Bad? 23
  2.4 On the Profitability of Incomplete Cartels 25
    2.4.1 Collusive price leadership 27
    2.4.2 Differentiated goods 29
    2.4.3 Quantity competition 30
    2.4.4 Comparison 33
  2.5 On the Sustainability of Incomplete Cartels 33
    2.5.1 Collusive price leadership 34
    2.5.2 Differentiated goods 34
2.5.3 Quantity competition ........................................ 35
2.5.4 Comparison .................................................. 36
2.6 The Participation Puzzle ........................................ 37
  2.6.1 Collusive price leadership ................................ 38
  2.6.2 Differentiated goods ..................................... 39
  2.6.3 Quantity competition ..................................... 40
  2.6.4 Comparison ................................................ 42
2.7 Coalition Formation with Positive Externalities ............. 42
  2.7.1 Simultaneous cartel formation ............................ 43
  2.7.2 Sequential cartel formation .............................. 45
2.8 Incomplete Cartels and Firm Heterogeneity ................... 47
2.9 Incomplete Bidding Rings ..................................... 49
2.10 Discussion ................................................... 53

3 A Theory of Incomplete Cartels with Heterogeneous Firms 55
  3.1 Introduction ................................................ 55
  3.2 A Model of Collusion with Asymmetric Capacity Constraints 58
    3.2.1 Static Nash Equilibrium ................................. 59
    3.2.2 Infinitely Repeated Game ............................. 61
  3.3 Optimal Cartel Size ........................................ 64
    3.3.1 Costless Collusion ................................... 65
    3.3.2 Costly Collusion ...................................... 67
  3.4 Incentives to Collude ....................................... 70
  3.5 The Most Profitable Cartel .................................. 75
  3.6 Incomplete Cartels and Mergers ............................ 77
    3.6.1 Merger Incentives .................................... 78
    3.6.2 Coordinated Effects of Mergers ....................... 80
  3.7 Concluding Remarks ......................................... 89

4 Cartel Detection and Antitrust Law Enforcement 93
  4.1 Introduction ................................................ 93
  4.2 Goal and Scope of Cartel Detection ........................ 95
    4.2.1 Why do we need Cartel Detection? .................... 96
    4.2.2 Why do we need Economics to Detect Cartels? ........ 97
  4.3 Economic Methods of Cartel Detection ........................ 99
    4.3.1 Market Structure ...................................... 100
    4.3.2 Cartel Conduct ....................................... 105
    4.3.3 Market Performance .................................... 110
  4.4 Potential Pitfalls in Cartel Detection ........................ 111
    4.4.1 No Result, is a Result ................................ 112
    4.4.2 Descriptive Flaws, Empirical Limitations and Theoretical
         Complications .......................................... 112
    4.4.3 On the Problem of Defining a Workable Benchmark .... 114
  4.5 Detecting Incomplete Cartels ................................ 114
    4.5.1 A Variance Screen for Collusion: an Example (1) ....... 115
  4.6 The Need for Industry Specific Detection Tests ............. 118
