Anne Lucia Christine Lindenhovius was born on December 2\textsuperscript{nd} 1980 in Nijmegen. She grew up with her parents and two older sisters in the little village of Heilig Landstichting and attended the Stedelijk Gymnasium in Nijmegen. During high school, she was a fanatic field hockey player and won the national championships in 1999.

After graduation from high school, Anneluuk spent one year in Tours and Annecy, France. Besides the cultural experience, she obtained an advanced degree in French linguistics. In 2000, she moved back to the Netherlands where she started Medical School at the University of Leiden. She joined the student society Leidse Studenten Vereniging Minerva and was actively engaged in several committees and social activities with her twenty-two roommates in sorority house ‘Rap 30’. During Medical School, she worked as allocation coordinator at Eurotransplant International Foundation in Leiden.

In 2004, Anneluuk completed a research internship at the Orthotrauma Research Center Amsterdam (ORCA) under supervision of Dr. Peter Kloen. Ambitious and enthusiastic about her research projects, she subsequently moved to the United States for an elective research fellowship at the Orthopaedic Hand and Upper Extremity Service at the Massachusetts General Hospital, Harvard Medical School, in Boston. From 2005 to 2007, Anneluuk worked with Professor Dr. Jesse Jupiter and Associate Professor Dr. David Ring on complex elbow trauma with a focus on the posttraumatic elbow. Her work was presented at national and international meetings and rewarded with several honors.

Currently, Anneluuk is finishing her clinical rotations. She will start her residency in orthopaedic surgery in January 2010 at the Academic Medical Center under supervision of Professor Dr. C. Niek van Dijk.
