Living in concentrated poverty

APPENDIX I: Survey Questionnaire

This is a translation of the Dutch questionnaire on social networks used in this study. It should be noted that in translating any questionnaire some nuances and terms specific to the Dutch language, culture or institutional setting might be lost. Such caution is particularly relevant for this questionnaire, in which an attempt was made to make the wording as plain and simple as possible to match the respondents’ low educational background and the potential lack of Dutch language skills of first generation immigrant residents. For those interested in the Dutch questionnaire a copy can be provided by the author (e-mail: f.m.pinkster@uva.nl) on request.

Introduction
Hello, my name is…… (name interviewer) from Onderzoeksbureau Labyrinth. I am here on behalf of the Universiteit van Amsterdam. We recently send you a letter to announce that we would be approach you for an interview. Do you have some time to participate and answer some questions for us? The interview should take about half an hour.

Selection question
Q 1) Might I first ask you how old you are?
O 1) Years:..............................

Interviewer: The interview is meant for residents between 18 and 65 years old. If the respondent is older than 65 or younger than 18, explain the age selection criterion. Thank the respondent for their willingness to participate and ask if there are others in their household between 18 and 65 years old who might be able to participate.

About the interview
Before we start I want to shortly tell you what we would like to talk to you about today. We would like ask you some questions about your life in ……… (name neighborhood) and what role neighborhood contacts play in your life. Of course, for everyone this is different. Some people have lived here for years while others just moved here. Some might feel more at home than others and some might have more contact with their neighbors than others. It is exactly these differences between residents that we are interested in.

In answering our questions there are no right or wrong answers; we are interested in your own experience. Of course your name will remain secret and everything we talk about will be anonymous. If you have any questions during the interview or our questions are not clear, please let me know. Do you have any questions before we begin?

APPENDIX II: Topic list interviews

This is a translation of the topic list used to conduct the qualitative interviews with residents in the low income neighborhood of Transvaal. It should be noted that in translating this list some nuances and terms specific to the Dutch language, culture and institutional setting might be lost. For those interested the Dutch topic list can be provided by the author (e-mail: f.m.pinkster@uva.nl) on request.

Introduction

Before we start I just want to shortly tell you again what we will talk about today. I will try to get a picture of your life in Transvaal, how you like the neighborhood, about your contacts with neighbors and other people in the neighborhood, like friends or family, and about your daily activities. So I am interested in your experiences here in the neighborhood. Of course, anything we talk about is anonymous. If you have any questions during the interview or my questions are not clear, please let me know. Do you have any questions before we start? ...

First I would like to ask you if it is ok if I record our conversation. That way I don't have to write as much while we talk. This recording will only be used by me and will not be given to others. Is that ok? ...

To start, maybe you could shortly introduce yourself, tell me who you are, your age and for example how long you have lived in Transvaal...

PART A. Home and neighborhood
