Acknowledgments

First of all I would like to thank Jan for his excellent supervision, for his invaluable comments and patience at all stages of this research. This thesis would never be finished without his support and instructions.

I would like to extend my thanks to all the committee members and the department colleagues for making helpful suggestions and comments.

I thank Amanda, for her support, love, chinotto and the proofreading. I thank my parents for their love and encouragement. Further, I have to thank my closest friends and colleagues: Agnieszka Markiewicz and Marcel Vorage for hosting me from time to time, Franci, Misha, Cezar, Tania, Domenico, Jan Tuinstra, Maurice Bun and many more who made my stay in Amsterdam very pleasant. Finally, I thank all my colleagues from the department for making the lunch and coffee breaks fun.
