Chapter 6  
Dependent Clauses in the Languages of the Sample

Table 6.1  DCs in the sample languages and their possibilities concerning the expression of propositional functions 197-204
Table 6.2  Basic data on behavioural potential of all DC constructions 220-229
Table 6.3  DC types and their internal formal properties 230
Table 6.4  Three-way classification of DCs 236-242
Table 6.5  Behavioural potential of type 1 balanced DCs 242-246
Table 6.6  Behavioural potential of type 2 D-SENT DCs 246-249
Table 6.7  Behavioural potential of type 3 D-ALT DCs 250-251
Table 6.8  Functional possibilities of type 1 balanced DCs 252-255
Table 6.9  Functional possibilities of type 2 D-SENT DCs 255-257
Table 6.10 Functional possibilities of type 3 D-ALT DCs 257-258

Chapter 7  
Results

Table 7.1  Frequencies for languages with/without flexible PoS and DCs 263
Table 7.2  Frequencies for language with/without rigid PoS only and rigid DCs only 264
Table 7.3  Frequencies for languages with/without flexible PoS and flexible DCs of type 1 266
Table 7.4  Frequencies for languages with/without flexible PoS and flexible DCs of type 2/3 266
Table 7.5a  Maslova test no. 1: change DC parameter to PoS=DC 266
Table 7.5b  Maslova test no. 2: Change PoS parameter to PoS=DC 267
Table 7.6  Frequencies for languages with/without flex PoS and flex DCs of type 2 268
Table 7.7  Frequencies for languages with/without flex PoS and flex DCs of type 3 268
Table 7.8a  Maslova test no. 1: change DC parameter to PoS=DC 269
Table 7.8b  Maslova test no. 2: Change PoS parameter to PoS=DC 269
Table 7.9  Frequencies for languages with/without rigid PoS only and rigid DCs only 270
Table 7.10a Maslova test no. 1: change DC parameter to PoS=DC 280
Table 7.10b Maslova test no. 2: change PoS parameter to PoS=DC 281

XIV  |  Parts of Speech and Dependent Clauses
Table 7.11  Frequencies for languages with/without contentives/non-verbs and contentive clauses/multi-functional clauses of type 1  
Table 7.12  Frequencies for languages with/without lexical contentives/non-verbs and contentive clauses/multi-functional clauses of type 3  
Table 7.13a Maslova test no. 1: change DC parameter to PoS=DC  
Table 7.13b Maslova test no. 2: change PoS parameter to PoS=DC  
Table 7.14 Frequencies for languages with/without nominals and nominal clauses  
Table 7.15 Frequencies for languages with/without nominals and nominal clauses of type 1  
Table 7.16 Frequencies for languages with/without nominals and nominal clauses of type 2/3  
Table 7.17 Frequencies for languages with/without nominals and nominal clauses of type 2  
Table 7.18 Frequencies for languages with/without nominals and nominal clauses of type 3  
Table 7.19 Frequencies for languages with/without modifiers and modifier clauses  
Table 7.20 Frequencies for languages with/without nouns and complement clauses  
Table 7.21 Frequencies for language with/without nouns and complement clauses of type 1  
Table 7.22 Frequencies for language with/without nouns and complement clauses of type 2/3  
Table 7.23 Frequencies for language with/without nouns and complement clauses of type 2  
Table 7.24 Frequencies for language with/without nouns and complement clauses of type 3  
Table 7.25 Frequencies for languages with/without adjectives and relative clauses  
Table 7.26 Frequencies for languages with/without adjectives and relative clauses of type 1  
Table 7.27 Frequencies for languages with/without adjectives and relative clauses of type 2/3  
Table 7.28 Frequencies for languages with/without adjectives and relative clauses of type 2  
Table 7.29 Frequencies for languages with/without adjectives and relative clauses of type 3  
Table 7.30 Frequencies for languages with/without (derived) manner adverbs and adverbial manner clauses  
Table 7.31 Frequencies for languages with/without (derived) manner adverbs and adverbial manner clauses of type 1
Table 7.32 | Frequencies for languages with/without (derived) manner adverbs and adverbial manner clauses of type 2/3 | 297
Table 7.33 | Availability and type of flexible DCs in languages with one or more flexible PoS classes | 298-299
Table 7.34 | Availability and type of flexible DCs in languages with rigid PoS classes only | 299-300
Table 7.35 | Availability and type of contentive/multi-functional clauses in languages with lexical contentives/non-verbs | 300
Table 7.36 | Availability and type of contentive/multi-functional clauses in languages without lexical contentives/non-verbs | 301-302
Table 7.37 | Availability and type of nominal clauses in languages with lexical nominals | 302
Table 7.38 | Availability and type of and nominal clauses in languages without lexical nominals | 302-303
Table 7.39 | Availability of modifier clauses in languages with (derived) lexical modifiers | 303-304
Table 7.40 | Languages without (derived) lexical modifiers, but with modifier clauses | 304
Table 7.41 | Availability and type of complement clauses in languages without nouns | 304
Table 7.42 | Availability and type of complement clauses in languages with nouns | 304-305
Table 7.43 | Availability and type of relative clauses in languages without adjectives, but with a flexible lexical strategy for the function of modifier in a referential phrase | 306
Table 7.44 | Availability and type of relative clauses in languages with an open class of simple adjectives | 306-307
Table 7.45 | Availability and type of relative clauses in languages without an open class of simple adjectives, but with derived adjectives (and a small class of simple adjectives) | 307
Table 7.46 | Availability and type of relative clauses in languages without an open class of simple/derived class adjectives, but with a small class of adjectives | 308
Table 7.47 | Availability and type of relative clauses in languages without a lexical strategy for the function of modifier in a referential phrase | 308
Table 7.48 | Availability and type of adverbial manner clauses in languages without an open class of simple/derived manner adverbs, but with a flexible lexical strategy for the function of modifier in a predicate phrase (and in some cases also a small class of rigid manner adverbs) | 309
Table 7.49  Availability and type of adverbial manner clauses in languages with an open class of simple manner adverbs 310
Table 7.50  Availability and type of adverbial manner clauses in languages without an open class of simple manner adverbs, but with derived manner adverbs (and in some cases a small class of simple manner adverbs) 310
Table 7.51  Availability and type of relative clauses in languages without an open class of simple/derived class manner adverbs, but with a small class of manner adverbs 311
Table 7.52  Availability and type of adverbial manner clauses in languages without a lexical strategy for the function of modifier in a predicate phrase 311

Chapter 8  Discussion: Flexibility and Functional Transparency
Table 8.1  Languages with a flexible PoS class, and the distribution of deranked DCs that appear in at least one of the same function(s) 323-324
Table 8.2  The principle of increasing complexity: Flexible PoS systems and deranked DCs 327
Table 8.3  Rigid PoS classes in languages with flexible PoS, and the distribution of deranked DCs that appear in the same function as these rigid PoS classes. 332-333
Table 8.4  Rigid PoS classes in languages with rigid PoS only, and the distribution of deranked DCs that appear in the same function 334-335
Table 8.5  Flexible balanced DCs in languages with flexible PoS systems 337
Table 8.6  Flexible balanced DCs in languages with rigid PoS systems 341
