Chapter 6  Dependent Clauses in the Languages of the Sample
Table 6.1  DCs in the sample languages and their possibilities concerning the expression of propositional functions  197-204
Table 6.2  Basic data on behavioural potential of all DC constructions  220-229
Table 6.3  DC types and their internal formal properties  230
Table 6.4  Three-way classification of DCs  236-242
Table 6.5  Behavioural potential of type 1 balanced DCs  242-246
Table 6.6  Behavioural potential of type 2 D-SENT DCs  246-249
Table 6.7  Behavioural potential of type 3 D-ALT DCs  250-251
Table 6.8  Functional possibilities of type 1 balanced DCs  252-255
Table 6.9  Functional possibilities of type 2 D-SENT DCs  255-257
Table 6.10  Functional possibilities of type 3 D-ALT DCs  257-258

Chapter 7  Results
Table 7.1  Frequencies for languages with/without flexible PoS and DCs  263
Table 7.2  Frequencies for language with/without rigid PoS only and rigid DCs only  264
Table 7.3  Frequencies for languages with/without flexible PoS and flexible DCs of type 1  266
Table 7.4  Frequencies for languages with/without flexible PoS and flexible DCs of type 2/3  266
Table 7.5a  Maslova test no. 1: change DC parameter to PoS=DC  266
Table 7.5b  Maslova test no. 2: Change PoS parameter to PoS=DC  267
Table 7.6  Frequencies for languages with/without flex PoS and flex DCs of type 2  268
Table 7.7  Frequencies for languages with/without flex PoS and flex DCs of type 3  268
Table 7.8a  Maslova test no. 1: change DC parameter to PoS=DC  269
Table 7.8b  Maslova test no. 2: Change PoS parameter to PoS=DC  269
Table 7.9  Frequencies for languages with/without rigid PoS only and rigid DCs only  270
Table 7.9a  Maslova test no. 1: change DC parameter to PoS=DC  280
Table 7.10b  Maslova test no. 2: change PoS parameter to PoS=DC  281
Table 7.11  Frequencies for languages with/without contentives/non-verbs and contentive clauses/multi-functional clauses of type 1  282
Table 7.12  Frequencies for languages with/without lexical contentives/non-verbs and contentive clauses/multi-functional clauses of type 3  283
Table 7.13a Maslova test no. 1: change DC parameter to PoS=DC  283
Table 7.13b Maslova test no. 2: change PoS parameter to PoS=DC  283
Table 7.14  Frequencies for languages with/without nominals and nominal clauses  284
Table 7.15  Frequencies for languages with/without nominals and nominal clauses of type 1  285
Table 7.16  Frequencies for languages with/without nominals and nominal clauses of type 2/3  286
Table 7.17  Frequencies for languages with/without nominals and nominal clauses of type 2  286
Table 7.18  Frequencies for languages with/without nominals and nominal clauses of type 3  286
Table 7.19  Frequencies for languages with/without modifiers and modifier clauses  287
Table 7.20  Frequencies for languages with/without nouns and complement clauses  290
Table 7.21  Frequencies for language with/without nouns and complement clauses of type 1  290
Table 7.22  Frequencies for language with/without nouns and complement clauses of type 2/3  291
Table 7.23  Frequencies for language with/without nouns and complement clauses of type 2  291
Table 7.24  Frequencies for language with/without nouns and complement clauses of type 3  291
Table 7.25  Frequencies for languages with/without adjectives and relative clauses  292
Table 7.26  Frequencies for languages with/without adjectives and relative clauses of type 1  293
Table 7.27  Frequencies for languages with/without adjectives and relative clauses of type 2/3  293
Table 7.28  Frequencies for languages with/without adjectives and relative clauses of type 2  294
Table 7.29  Frequencies for languages with/without adjectives and relative clauses of type 3  294
Table 7.30  Frequencies for languages with/without (derived) manner adverbs and adverbial manner clauses  295
Table 7.31  Frequencies for languages with/without (derived) manner adverbs and adverbial manner clauses of type 1  296
Table 7.32
Frequencies for languages with/without (derived) manner adverbs and adverbial manner clauses of type 2/3 297

Table 7.33
Availability and type of flexible DCs in languages with one or more flexible PoS classes 298-299

Table 7.34
Availability and type of flexible DCs in languages with rigid PoS classes only 299-300

Table 7.35
Availability and type of contentive/multi-functional clauses in languages with lexical contentives/non-verbs 300

Table 7.36
Availability and type of contentive/multi-functional clauses in languages without lexical contentives/non-verbs 301-302

Table 7.37
Availability and type of nominal clauses in languages with lexical nominals 302

Table 7.38
Availability and type of and nominal clauses in languages without lexical nominals 302-303

Table 7.39
Availability of modifier clauses in languages with (derived) lexical modifiers 303-304

Table 7.40
Languages without (derived) lexical modifiers, but with modifier clauses 304

Table 7.41
Availability and type of complement clauses in languages without nouns 304

Table 7.42
Availability and type of complement clauses in languages with nouns 304-305

Table 7.43
Availability and type of relative clauses in languages without adjectives, but with a flexible lexical strategy for the function of modifier in a referential phrase 306

Table 7.44
Availability and type of relative clauses in languages with an open class of simple adjectives 306-307

Table 7.45
Availability and type of relative clauses in languages without an open class of simple adjectives, but with derived adjectives (and a small class of simple adjectives) 307

Table 7.46
Availability and type of relative clauses in languages without an open class of simple/derived class adjectives, but with a small class of adjectives 308

Table 7.47
Availability and type of relative clauses in languages without a lexical strategy for the function of modifier in a referential phrase 308

Table 7.48
Availability and type of adverbial manner clauses in languages without an open class of simple/derived manner adverbs, but with a flexible lexical strategy for the function of modifier in a predicate phrase (and in some cases also a small class of rigid manner adverbs) 309
Table 7.49  Availability and type of adverbial manner clauses in languages with an open class of simple manner adverbs  

Table 7.50  Availability and type of adverbial manner clauses in languages without an open class of simple manner adverbs, but with derived manner adverbs (and in some cases a small class of simple manner adverbs)  

Table 7.51  Availability and type of relative clauses in languages without an open class of simple/derived class manner adverbs, but with a small class of manner adverbs  

Table 7.52  Availability and type of adverbial manner clauses in languages without a lexical strategy for the function of modifier in a predicate phrase  

Chapter 8  Discussion: Flexibility and Functional Transparency  

Table 8.1  Languages with a flexible PoS class, and the distribution of deranked DCs that appear in at least one of the same function(s)  

Table 8.2  The principle of increasing complexity: Flexible PoS systems and deranked DCs  

Table 8.3  Rigid PoS classes in languages with flexible PoS, and the distribution of deranked DCs that appear in the same function as these rigid PoS classes.  

Table 8.4  Rigid PoS classes in languages with rigid PoS only, and the distribution of deranked DCs that appear in the same function  

Table 8.5  Flexible balanced DCs in languages with flexible PoS systems  

Table 8.6  Flexible balanced DCs in languages with rigid PoS systems
