The EurOccupations Database of Occupations

This report refers to the source list, search tree and translations developed as part of the EurOccupations project. It has translations for Belgium, Germany, France, Italy, Netherlands, Poland, Spain and United Kingdom. The first version of this Database of Occupations, then called 'the extended list', and its search tree and translations were detailed in Deliverable D1b (Tijdens and Jacobs 2007). This report is an update of Deliverable D1b. The process leading to this update is described in Deliverable D1a1 (Tijdens 2009).

The EurOccupations Database of Occupations, accompanying this report, is an MS Excel file, called EUROCCUPATIONS_8_COUNTRIES-20090606-FOR FP6. Table 2 at the next page details the contents of the file.

All occupational titles in the database have a 13-digit code. Table 1 shows the break-down of this code.
