List of tables

1.1 Relevant characteristics of Ghana’s coastal regions 13
1.2 Number of marine fishing vessels in Ghana 16
2.1 Main features of the research locations 40
2.2 Interviews subdivided in categories 48
2.3 Data overview of company records. 52
2.4 Data overview of fieldwork 53
2.5 Research Assistants, years and research locations 56
3.1 Woe: marital status 87
3.2 Woe: educational level 88
3.3 Woe: age and having a job 89
3.4 Woe: jobs per sexes 89
3.5 If no water is available on the compound, where do you get your water from? 90
3.6 Woe: fish processing techniques used 90
3.7 Woe: ovens used 91
3.8 Akosua Village: marital status 92
3.9 Akosua Village: educational level 93
3.10 Akosua Village: age and having a job 93
3.11 Akosua Village: jobs by sex 94
3.12 Akosua Village: how many smoking ovens does this household have? 96
3.13 Half Assini: age group by sex 97
3.14 Half Assini: marital status 97
3.15 Half Assini: educational level 99
3.16 Half Assini: age and having a job 99
3.17 Half Assini: jobs by sex 100
3.18 Half Assini: types of fish processing 101
3.19 Percentage of age groups by research location 102
3.20 Percentages of age groups 11-20 and 21-30 with a job, by research location 102
3.21 Line of work of the working population of the research population (%) 103
3.22 Motorisation in Ghanaian artisanal fisheries 114
4.1 Comparing the three example companies, operating in 2004-2005 127
4.2 An example of a day’s sharing of the catch by the sample company in Akosua Village 132
4.3 Average catch value per fishing day of the example company of Half Assini 134
4.4 Perception own future – net owners; based on questionnaire 2005 141
4.5 Perception own future – crew; based on questionnaire 2005 141
