It is not permitted to download or to forward/distribute the text or part of it without the consent of the author(s) and/or copyright holder(s), other than for strictly personal, individual use, unless the work is under an open content license (like Creative Commons).

Disclaimer/Complaints regulations

If you believe that digital publication of certain material infringes any of your rights or (privacy) interests, please let the Library know, stating your reasons. In case of a legitimate complaint, the Library will make the material inaccessible and/or remove it from the website. Please Ask the Library: <https://uba.uva.nl/en/contact>, or a letter to: Library of the University of Amsterdam, Secretariat, Singel 425, 1012 WP Amsterdam, The Netherlands. You will be contacted as soon as possible.

Contents

Chapter 1	General Introduction	9
Chapter 2	Effects of smoking on the <i>ex vivo</i> cytokine production in periodontitis	23
Chapter 3	Cigarette smoking enhances T cell activation and a Th2 immune response; an aspect of the pathophysiology in periodontal disease	43
Chapter 4	Monozygotic twins are discordant for chronic periodontitis. Clinical and bacteriological findings	59
Chapter 5	Monozygotic twins are discordant for chronic periodontitis. White blood cell counts and cytokine production after <i>ex vivo</i> stimulation.	83
Chapter 6	Summary and Conclusions	105
	Samenvatting	115
	Resumen	125
	Acknowledgements	141
